

# Installing McAfee VirusScan

McAfee VirusScan software is loaded on your system, but must be installed for the program to run.

**NOTE:** McAfee VirusScan is installed to protect your system from viruses. When installed, it will run continuously in the background and decrease system performance.

1. Double-click the **McAfee Setup** icon on your desktop.
2. Follow the onscreen instructions for a **Typical** installation.
3. At the **Emergency Disk Wizard**, insert a floppy disk and follow the onscreen instruction to create an emergency boot disc or click **Cancel** to continue installing McAfee VirusScan.
4. When you have finished creating your emergency boot disc or if you have continued to install McAfee VirusScan, click **Yes** to read the product information or **No** to complete the installation.
5. Follow the onscreen instructions and restart your computer to complete the installation.

**NOTE:** After your computer restarts, the McAfee VirusScan icon is displayed in the lower right corner of the display.
