

## Compaq Presario 1400 Innovation and Style

### Personalize Your Mobile Internet PC

Compaq realizes that different people have different computing needs. That's why the Presario 1400 has been designed with personalization in mind. The Presario 1400 gives you the freedom to personalize your Notebook to match your individual lifestyle.

### MyStyle Accent Color Kits and Wallpapers

The look and feel of your Notebook can be easily changed with MyStyle Accent Color Kits. Preview and order the kits from the Compaq website at <http://www.compaq.com/athome/color>. You can also change your wallpaper to match your color selection. The Presario 1400 comes with matching MyStyle Accent Wallpapers that are coordinated with the different MyStyle Accents.

### Business Card Holder

The Presario 1400 also features a **business card holder** on the bottom of the notebook for your business card or ID of your choice.

### Digital Audio Zone

Your Presario 1400 is your personal mobile jukebox. The easy-access Digital Audio Zone provides single-touch, dedicated control of your MP3 playlist even when the display panel is closed. These controls can be used to control your pre-loaded MP3 Player, audio CD, or DVD movie (select models). The headphone jacks are conveniently located in the front so that you can listen to your favorite tunes while you are on the go.

### Internet Zone

Accessing the Internet is quick and easy with the Internet Zone. You can personalize these dedicated, one-touch buttons by reprogramming them to the your favorite web site destinations.

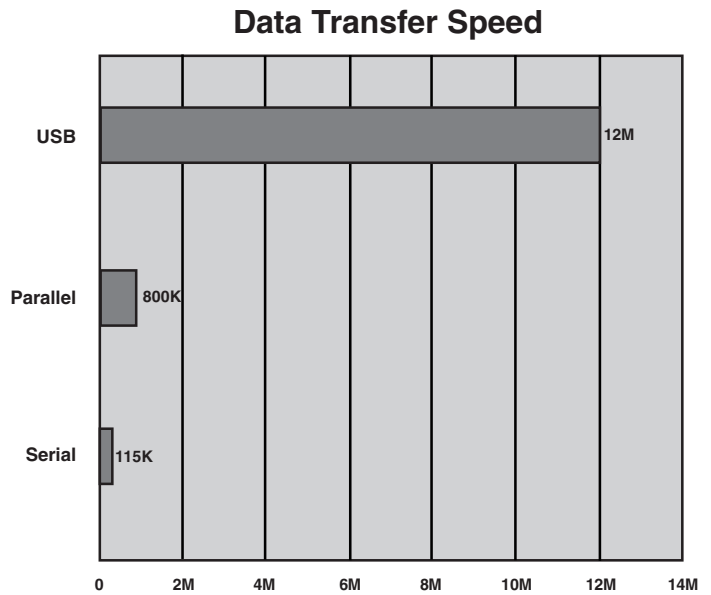

### 4-Way Internet Scroll

The **4-Way Internet Scroll** provides both vertical and horizontal scrolling through web pages, documents, or presentations. The scrolling feature can also be reprogrammed to function as a gamepad with many popular games.

## Easy to Use

The Presario 1400 simplifies your life. No need to worry about IRQs, DMA channels, I/O addresses when connecting external devices. The Presario 1400 replaces these older and slower external ports with two high-speed Universal Serial Bus (USB) ports. USB is now the dominant interface for connecting virtually all computer peripherals such as printers, PDAs, scanners, digital cameras, and so on. USB transfers data faster than older ports.
