

## 7 Power and Voltage

**NOTE:** Your model may not include a voltage selection switch. If a switch is available, the voltage is factory set to the correct rating. If in doubt, contact your local power utility.

## 8 Start Up

**IMPORTANT:** When the computer starts, the system automatically converts the file system on your hard drive. The conversion may take several minutes. **Do not stop the process.** When the conversion is completed the computer restarts.

When prompted, begin your product registration process. Online instructions guide you through the registration and preinstalled software setup process. The setup time varies by computer configuration.

The rating label on the device shows which FCC class (A or B) the equipment falls into. Only Class B devices have an FCC logo or FCC ID on the label. Refer to the corresponding statement for your class. For complete details, read the Safety and Regulatory Information contained in the *Warranty and Support Guide*.
