HP Customer Care

Thank you for buying an HP DeskJet printer. Because HP wants owning your printer to be a trouble-free experience, we back your purchase with HP Customer Care—award-winning service and support that includes:

HP Customer Care Online

Click your way to a quick solution! HP Customer Care Online is a great place to start for answers to questions about your HP DeskJet printer—24 hours a day, seven days a week.

If you have a modem connected to your computer and subscribe to an online service, or have direct access to the Internet, you can obtain a wide variety of information about your printer at the following web sites:

- English: http://www.hp.com/support/home_products
- French: http://www.hp.com/cposupport/fr/
- German: http://www.hp.com/cposupport/de/
- Spanish: http://www.hp.com/cposupport/es/

From HP Customer Care Online you can link to HP Customer Care User Forums and HP Customer Care Email.

HP Customer Care by Phone

Call us direct and connect with a service technician who specializes in your product and who can typically answer your questions in one phone call. (See page 47 in this User’s Guide for phone numbers.)

Thank You For Buying an HP DeskJet Printer!

Here’s what comes in the box. If something is missing, talk to your HP dealer or call HP Customer Care. (See page 47 for phone numbers.)
Special Features of Your HP DeskJet Printer

Your new HP DeskJet printer is equipped with these special features:

- Stunning photo quality through HP’s Color Layering Technology
- Laser-quality black text
- Excellent print quality on plain paper
- Uncompromising performance with print speeds of up to 11 pages per minute for black text and 8.5 pages per minute for text with color graphics
- Special Photo Tray for printing on HP Premium Plus Photo Paper, Glossy 4 x 6 in., 102 x 152 mm (with tear-off tab)
- Efficient, fast photo image printing
- Large capacity paper tray that holds up to 100 sheets

Finding More Information

This User’s Guide shows you how to operate your printer. For more information:

- Use the Quick Start Poster for installation.
- Turn on balloon help in the Help menu. Move your cursor over any print setting to view an explanation.
- Visit the HP web site at http://www.hp.com/support/home_products for the latest product information, troubleshooting, and printer software updates.
1 Printing Basics

Buttons and Lights

The HP DeskJet printer buttons (shown below) let you turn the printer on and off, cancel a print job, or resume printing. The lights give you visual cues about the state of your printer. The buttons and lights from left to right are:

- **Cancel Button** – Press this button to cancel the current print job.

- **Print Cartridge Status Light** – When lit, the light above this symbol indicates that you need to check the status of your print cartridges. See “Print Cartridge Status” on page 27 for more information.

- **Resume Button and Light** – When this light flashes an action is needed such as load paper or clear a paper jam. To continue printing, press the Resume Button. See “What do the flashing lights mean?” on page 41.

- **Power Button and Light** – Use the Power Button to turn the printer on and off. When the green light above the Power Button flashes, printing is in progress.

**Warning** Always use the Power Button on the front of the printer to turn the printer on and off. Using a power strip, surge protector, or a wall-mounted switch to turn the printer on and off may cause premature printer failure.
Printing Basics

Paper Trays

IN Tray
To print, place paper or other media types in the IN tray. Pull out this tray for easy loading. Load media print side down. Slide all media as far as it will go into the IN tray. Once you insert the media you want to use, slide the paper guides so they rest snugly against the media. Make sure the IN tray is pushed back in.

OUT Tray
The printer sends finished pages to the OUT tray. The OUT tray can be up or down depending on what you’re printing.

Down – This is the typical position for most types of printing. The down position also allows single envelope printing. For information about printing on other media, see Chapter 2.

Up – The OUT tray must be in the up position to properly load HP Premium Plus Photo Paper, Glossy 4 x 6 in., 102 x 152 mm (with tear-off tab). To print banners, the OUT tray must remain in the up position.
Printing Basics

Photo Tray

The HP DeskJet 950C uses HP’s exclusive PhotoREt technology to enhance your color photos, giving you exceptional quality pictures when you print on HP Premium Plus Photo Paper, Glossy 4 x 6 in., 102 x 152 mm (with tear-off tab).

You can place up to 24 sheets of HP Photo Paper into the photo tray. The first time 4 x 6 in. photo paper is used, the printer will calibrate the Photo Tray by feeding through a blank sheet. You can save the blank sheet for future use. See page 13 for specific instructions on printing photos.

Printer Maintenance Tips

Because the printer ejects ink onto the paper in a fine mist, ink smudges will eventually appear on the printer case. To remove smudges, stains, and/or dried ink from the exterior of the printer, use a soft cloth moistened with water.

When cleaning your printer, keep these tips in mind:

- Do not clean the interior of the printer. Keep all fluids away from the interior.
- Do not use household cleaners or detergent. In the event that a household cleaner or detergent is used on the printer, wipe the printer’s exterior surfaces with a soft cloth moistened with water.
- Do not lubricate the print cartridge support rod. Noise is normal when the print cartridge cradles slide back and forth.

For information on cleaning print cartridges and the print cartridge cradle, see page 32.
Choosing Your Printer

Note: You should have already installed your printer software. If not, please see the Quick Start Poster or the HP Printer Software CD that came with your printer.

If you haven’t already selected your HP DeskJet printer as the default printer in the Chooser, follow the directions below to do so now.

1. Make sure the computer and printer are turned on, and your printer is connected to your computer with a USB cable.

2. From the Apple menu, select Chooser.

3. In the left side of the Chooser window, click the DeskJet 900 Series icon.

4. In the right side of the Chooser window, click DeskJet 950C.

5. Close the Chooser.

Other Ways to Select a Default Printer

Besides using the Chooser, you can also select a default printer in the following ways:

- Select the desired printer by clicking on the menu bar printer icon at the top of the screen, and choosing the DeskJet 950C.

- If your control strip is on, then select the desired printer by clicking the printer icon in the control strip, and choosing the DeskJet 950C.

- Drag the document you want to print to the desktop icon of the printer you want to use.

- Click the HP DeskJet printer icon you want to use, and choose Set Default Printer from the Print menu.

The Print command will send your documents to this printer until you select a new default printer. If you switch printers, check your document before you print it to see whether the formatting or pagination changed.
Using Your Printer Software

Desktop Printing

Desktop printing is useful when you have a number of documents to print at once, or when you have a document that is already formatted for printing on a particular printer. There are two methods to print documents from the desktop. To perform desktop printing, either:

- Drag the icons of the documents you want to print to the desktop icon of the printer you want to use.

OR

- Select the icons of the documents you want to print, then choose Print from the File menu. When the Print dialog box appears, select your print options, then click the Print button.

Checking Printer Status

You can tell the status of a printer by looking at its desktop icon:

<table>
<thead>
<tr>
<th>Icon</th>
<th>Description</th>
<th>Icon</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Idle printer (default)" /></td>
<td>Idle printer (default)</td>
<td><img src="image" alt="Printing stopped on default printer" /></td>
<td>Printing stopped on default printer</td>
</tr>
<tr>
<td><img src="image" alt="Idle printer (not default)" /></td>
<td>Idle printer (not default)</td>
<td><img src="image" alt="Error on default printer" /></td>
<td>Error on default printer</td>
</tr>
<tr>
<td><img src="image" alt="Printing on default printer" /></td>
<td>Printing on default printer</td>
<td><img src="image" alt="Printer not available or connected" /></td>
<td>Printer not available or connected</td>
</tr>
</tbody>
</table>
Using Your Printer Software

Page Setup - Controlling Page Layout

You control settings such as paper size, scaling, and page orientation from the HP DeskJet 900 Series Page Setup dialog box. To get to this dialog box:

1. Open the software program used to create your document.
2. From the File menu, select Page Setup.

Paper Size, Scaling, and Page Orientation

Make sure you correctly choose the size of paper, envelopes, or other media you have in the IN tray.

Enter a number from 20 to 400. Numbers smaller than 100 reduce the image size, and numbers greater than 100 enlarge it. Changing size may change pagination.

Click the appropriate icon to choose page orientation.
2 Using Your Printer Software

Print Dialog Box

You control settings such as number of copies, all or specific pages to print, paper type, print quality, page layout, color, and background printing from the HP DeskJet 900 Series Print dialog box. To get to this dialog box, select Print from your software program’s File menu.

Buttons

There are four buttons at the bottom of every Print dialog box:

- **Save Settings** saves any print settings you select
- **Revert to Defaults** returns your print settings to the original HP-defined settings
- **Cancel** cancels settings you have entered and closes the Print dialog box
- **Print** starts printing
Using Your Printer Software

General

General is the default panel selected in the Print dialog box. This panel lets you select the number of copies you want to print, whether you want to print the entire document or select pages, and whether you want to print from the front of your document or begin printing from the end forward.

- Paper Type/Quality (see “Paper Type/Quality” on page 9)
- Layout (see “Layout” on page 9)
- Color (see “Color” on page 10)
- Background Printing (see “Background Printing” on page 11)
- Ink Controls allows you to adjust the ink volume and dry time.
Using Your Printer Software

Paper Type/Quality

Choose from a wide range of paper types.

Print Quality
Draft: Quick printing
Normal: Everyday printing
Best: Highest quality
High Res Photo: Photo quality when photo media and Best are selected.

Layout

This dialog box allows you to specify the number of pages printed on each sheet of paper, or to print a poster by specifying the number of pages printed across and down.

Choose the number of pages (1, 2, or 4) to print on each sheet. OR
Print a poster:
Choose the size of your poster by choosing the number of pages across and down (2x2, 3x3, or 4x4).

Check to print a border around each page.

If you check Print Both Sides, choose appropriate Binding (side or top).
Using Your Printer Software

Color

Your HP DeskJet 900 Series printer uses HP’s Color Matching technology to intelligently analyze each element on a page—text, graphics, and photographs—and provide the best color output.

HP Color Matching is the default Image setting on the Color panel. While you can adjust saturation, brightness, and color tone with the sliders that appear when you choose this option, the center position of the sliders is optimized for most printing uses and types of media.

The ColorSync setting can be used for color matching with other components using the ColorSync matching system.

Grayscale prints in shades of gray. With this setting, you also have the option to optimize printing for fax and photocopy.

Black & White prints only in black and white (no color, no gray).
Using Your Printer Software

Background Printing

Choose Background if you want to continue working while printing takes place. If you choose Foreground printing, printing will be faster, but you won’t be able to work on other tasks until the printing is complete.

Choose:
• Background to continue working while printing
• Foreground for faster printing

Click the button that matches the desired timing for your print job.
Using Your Printer Software

The following table describes additional features available when using background printing. To access these features from the desktop, double-click the DeskJet 950C printer icon.

<table>
<thead>
<tr>
<th>Background Printing Options</th>
<th>Instructions</th>
</tr>
</thead>
</table>
| Delete a print job                 | • Select the job title or icon, then click the Trash icon.  
|                                    |   or  
|                                    |   • Drag the document’s icon to the Trash on your desktop.  
|                                    |   These methods delete only the print job, not the document itself.          |
| Hold/pause a print job             | • Select the job title or icon, then click the Pause button.  
|                                    |   The print request will pause until you select its title again and click the Resume button.  
|                                    |   or  
|                                    |   • Drag the document icon to the Waiting to Print list of documents.       |
| Mark a print request “Urgent”      | • Select the job title or icon, then click the small clock.  
|                                    |   • In the dialog box that appears, click Urgent.  
|                                    |   This moves the print request to the top of your print list.               |
| Print at a specific time           | • Select the job title or icon, then click the small clock.  
|                                    |   • In the dialog box that appears, click At Time, then set the time and date to print. |
| Sort/change the order of print jobs| • From the View menu, choose the title of the column by which you want to sort or choose.  
|                                    |   • To see and change the print order, sort by Print Time.  
|                                    |   • Drag and drop the print job title to the desired place in the list.     |
| Stop and restart printing          | • Choose Stop Print Queue from the Printing menu.  
|                                    |   • To resume printing, choose Start Print Queue.  
|                                    |   This is a good way to save print requests when using a PowerBook while away from your printer. |
| Change printers                    | To move a print job from one printer to another printer of the same type:  
|                                    |   • Drag the icon for the print request to the icon of the desired printer.  
|                                    |   If you’re not sure whether the two printers are of the same type, try moving the print request anyway; the printer software won’t let you move a print request to an incompatible printer. |
Printing on Different Types of Paper and Media

The HP DeskJet 950C Series printer is designed to encompass so many different types of print media that you’re practically set up as a small print shop. This chapter explains how to use the different printing materials.

### Printing Photographs

<table>
<thead>
<tr>
<th>I want to print...</th>

Printing Envelopes

<table>
<thead>
<tr>
<th>I want to print...</th>
<th>I should...</th>
</tr>
</thead>
</table>
| **Single envelope** | 1 Slide the envelope, with its flap side on the left and flap facing up, into the OUT tray's single envelope slot. Push the envelope in until it stops.  
2 Choose the print settings that match the type and size of the envelope.  
3 Print the envelope. |

**HP print settings to choose**
- **Page Setup**  
  - Paper Size: Choose appropriate envelope size  
  - Orientation: Choose Portrait icon
- **Paper Type/Quality**  
  - Paper Type: Choose Plain Paper  
  - Print Quality: Choose Normal
- **Layout**  
  - Pages per Sheet: 1  
  - Print Both Sides: Unchecked

**Guidelines to remember**
- Make sure the OUT tray is in the down position.  
- Avoid envelopes that have clasps or windows.  
- Avoid envelopes that are shiny or embossed, envelopes with thick, irregular, or curled edges, or envelopes that are wrinkled, torn, or otherwise damaged.  
- If your software program includes an envelope-printing feature, follow those instructions instead of the procedure here.
## Using Your Printer Software

### Stack envelopes

1. Slide out both of the paper guides, and remove all paper from the IN tray.
2. Slide up to 15 envelopes, with their flap side on the left and flap facing up, into the IN tray as far as they will go.
3. Slide the paper guides snugly against the edges of the envelopes.
4. Make sure the IN tray is pushed in.
5. Choose the print settings that match the type and size of the envelopes.
6. Print the envelopes.

### HP print settings to choose

<table>
<thead>

## Printing Cards

<table>
<thead>
<tr>
<th>I want to print...</th>
<th>I should...</th>
</tr>
</thead>
</table>
| Cards (index, business, and other small media) | 1. Pull out the IN tray.  
2. Slide out both of the paper guides, and remove all paper from the IN tray.  
3. Insert up to 30 cards into the IN tray as far as they will go.  
4. Push the paper length guide in as far as it will go. Push the fine-length guide (colored portion of paper length guide) snugly against the small media. Then push the paper width guide in.  
5. Make sure the IN tray is pushed in.  
6. Choose the print settings that match the type and size of the cards.  
7. Print the cards. |

### HP print settings to choose

- **Page Setup**
  - **Paper Size:** Choose appropriate card size  
  - **Orientation:** Choose Portrait icon

- **Paper Type/Quality**
  - **Paper Type:** Choose Plain Paper  
  - **Print Quality:** Choose Normal

- **Layout**
  - **Pages per Sheet:** 1  
  - **Print Both Sides:** Unchecked

### Guidelines to remember

- Align the edges of the media before inserting.  
- For ease of loading small cards, pull out the IN tray and raise the OUT tray.  
- After you have inserted the cards, make sure the fine-length adjuster fits snugly against the small media. Then push the IN tray in and lower the OUT tray.
Printing Labels

I want to print... | I should...
---|---
1. Slide out both of the paper guides, and remove all paper from the IN tray.
2. Fan the edges of the label sheets to separate them, then align the label edges. Insert up to 20 label sheets (label side down).
3. Slide the paper guides snugly against the sheets.
4. Make sure the IN tray is pushed in.
5. Choose the print settings that match the type and size of labels.
6. Print the labels.

---

Guidelines to remember

- Use only paper labels that are designed specifically for use with inkjet printers.
- Never load more than 20 sheets at one time.
- Use only full sheets of labels.
- Make sure the sheets are not sticky, wrinkled, or pulling away from their protective backing.
- Do not use plastic or clear labels. The ink will not dry when used with plastic or clear labels.
## Printing Transparencies

<table>
<thead>
<tr>

### HP print settings to choose

**Page Setup**
- Paper Size: Choose appropriate size
- Orientation: Choose appropriate orientation

**Paper Type/Quality**
- Paper Type: Choose transparency type
- Print Quality: Choose Normal or Best

**Layout**
- Pages per Sheet: 1
- Print Both Sides: Unchecked

### Guidelines to remember

- For best results, use HP Premium Inkjet Transparency Film or HP Premium Inkjet Rapid-dry Transparencies. The film coating on HP Premium Inkjet Rapid-Dry Transparencies is especially developed to work with HP inks, giving you crisp images and text and the fastest drying times. In addition, they won’t jam your printer.
Printing Iron-on Transfers

I want to print... | I should...
--- | ---
1. Slide out both of the paper guides, and remove all paper from the IN tray. | 1. Slide out both of the paper guides, and remove all paper from the IN tray.
2. Load the transfer paper transparent (or glossy) side down. | 2. Load the transfer paper transparent (or glossy) side down.
3. Slide the paper guides snugly against the sheets. | 3. Slide the paper guides snugly against the sheets.

## Printing Banners

### I want to print... | I should...
--- | ---
Tear off the number of sheets you need (up to 20). | 1
Tear off and discard the perforated strips, if any. | 2
Slide out the paper guides, and remove all paper from the IN tray. | 3
Raise the OUT tray and leave it in the up position to print your banners. | 4
Put the banner paper in the IN tray so that the unattached edge is at the top of the stack. Insert the first edge into the IN tray until it stops. | 5
Slide the paper guides snugly against the sheets. | 6
Make sure the IN tray is pushed in. | 7
Choose the appropriate paper type, size, and orientation from the Page Setup and Print dialog screens. | 8
Print the banner. | 9

### HP print settings to choose

**Page Setup**
- *Paper Size:* Choose U.S. Letter Banner or A4 Banner
- *Orientation:* Choose appropriate orientation

**Paper Type/Quality**
- *Paper Type:* Choose Plain Paper or HP Banner Paper
- *Print Quality:* Choose Normal

**Layout**
- *Pages per Sheet:* 1
- *Print Both Sides:* Unchecked

### Guidelines to remember

- When printing banners, be sure that the OUT tray is placed in the up position and the IN tray is pushed in.
- For best results, use HP Banner Paper.
- If you are having problems printing a banner, see “Banners aren’t printing correctly.” on page 44.

Two-Sided Printing

<table>
<thead>
<tr>
<th>I want to print...</th>
<th>I should...</th>
</tr>
</thead>
</table>
| Manual Two-Sided Printing  
Book Binding          | 1. Remove all paper from the OUT tray.  
2. Load paper into the IN tray.  
3. Slide the paper guides snugly against the sheets.  
4. Make sure the IN tray is pushed in.  
5. In the Layout dialog box, click **Print Both Sides**, then select either the **Book** or **Tablet** icon, and uncheck **Automatic**.  
6. Choose the print settings that match the type and size of your paper.  
7. Begin printing.  
8. Carefully follow the reloading instructions displayed on your computer screen.  
9. When the paper is properly reloaded, click **Continue** in the message box on your computer screen. |
| Tablet Binding       |             |

**HP print settings to choose**

- **Page Setup**
  - **Paper Size**: Choose appropriate size
  - **Orientation**: Choose appropriate orientation

- **Paper Type/Quality**
  - **Paper Type**: Choose appropriate type
  - **Print Quality**: Choose **Normal**

- **Layout**
  - **Pages per Sheet**: 1
  - **Print Both Sides**: Check this box, then choose the **Book** icon (for binding on the side) or **Tablet** icon (for binding at the top). Uncheck **Automatic**.

**Guidelines to remember**

- The printer prints one side of the paper first. Then, a message on your computer screen tells you how to reload the paper and resume printing. The reverse side of the paper is then printed.
- If you want to do two-sided printing automatically, you can purchase a Two-Sided Printing Module. This accessory may not be available in all countries (see “Supplies and Accessories” on page 50 for ordering information).
2 Using Your Printer Software

HP DeskJet Utility Window

The HP DeskJet Utility is located in the Utilities folder on your hard drive's main directory. The HP DeskJet Utility window has seven panels, as shown below:

- **Select** allows you to select the DeskJet 950C from the list of printers connected to your computer (see “Select Panel” on page 26)
- **WOW!** demonstrates the HP DeskJet 950C’s photo print quality
- **Ink Level** displays the approximate amount of ink remaining in each print cartridge
- **Test** allows you to print a test document
- **Clean** allows you to automatically clean your print cartridges
- **Calibrate** allows you to automatically align the Color and Black print cartridges, and allows you to calibrate the Photo Tray
- **Support** provides links to HP’s Customer Care web site and printer software updates

Simply click a panel, then choose your option(s).
Using Your Printer Software

Select Panel

Use this panel when any of the functions on the Utility window prompt you to select a printer. For example, if you want to calibrate your printer by choosing the Calibrate panel, you will be prompted to first select your printer if it is not already selected.

To select your printer from the HP DeskJet Utility window:

1. Click the Select panel on the Utility window.
2. Select USB.
3. In the Connect To: list, choose the appropriate HP Deskjet printer.
Using and Caring for Your Print Cartridges

Print Cartridge Status

The Print Cartridge Status Light flashes when one or both of your print cartridges are low on ink, improperly installed, or malfunctioning. It will also flash if you are trying to use the wrong print cartridge type. If the problem is low ink, the light will stop flashing when you open the top cover. For any other print cartridge-related problem, the Print Cartridge Status Light will continue to flash.

To check the status of your print cartridges, open the printer’s top cover. The yellow arrow on the print cartridge cradle aligns with one of five Print Cartridge Status icons.
### 3 Using and Caring for Your Print Cartridges

When the Print Cartridge Status Light flashes, open the printer’s top cover and follow the instructions below. For more information on replacing print cartridges see page 29.

</tbody>
</table>
Replacing Print Cartridges

**Note:** When buying replacement print cartridges, check the part numbers carefully. The print cartridge numbers for your printer are:
- Black HP 51645 Series
- Tri-Color HP C6578 Series

**Note:** When a print cartridge runs out of ink, leave the empty cartridge in the cradle until you can replace it. The printer does not print with only one print cartridge in the cradle.

**To replace a print cartridge:**

1. To access the print cartridge cradle, press the Power Button to turn on the printer.
2. Open the top cover. The cradle moves to an accessible position.
3. Raise the cradle latch.
4. Lift the print cartridge out and discard it.

**Warning** Keep print cartridges out of the reach of children.
Using and Caring for Your Print Cartridges

5 Remove the replacement print cartridge from its packaging and carefully remove the protective vinyl tape.

6 Push the print cartridge firmly, straight down into the print cartridge cradle.

7 Close the cradle latch. When the latch is fully closed, you will hear a click.

8 Load plain white paper in the IN tray.

9 Close the top cover, then a calibration page will print.

Warning Do NOT touch the print cartridge ink nozzles or copper contacts. Touching these parts will result in clogs, ink failure, and bad electrical connections. Also, do NOT remove the copper strips; these are required electrical contacts.

Note: Any time you install a new print cartridge, the printer software prints a calibration page to ensure your print quality. If you are in the middle of printing and stop to change a print cartridge, the software will wait until your printing has completed before it executes the calibration test.

10 If the Print Cartridge Status Light continues to blink after you install the new print cartridge, check the part number on the print cartridge to ensure you installed the correct one.
Using and Caring for Your Print Cartridges

Storing Print Cartridges

To maintain excellent print quality from your print cartridges:

- Keep all print cartridges in their sealed packages, at room temperature (60-78°F or 15.6-26.6°C), until you are ready to use them.
- Once installed, leave the print cartridges in their cradle at all times to keep them from drying out or becoming clogged.
- Store unsealed print cartridges in an airtight plastic container.
- **Do NOT** unplug the printer until printing is complete and the print cartridge cradles have returned to their home position on the right side of the printer. The print cartridges will dry out if not stored in their home position.

**Warning**

Only use the Power Button on the front of the printer to turn the printer on and off. Using a power strip, surge protector, or a wall-mounted outlet switch to turn the printer on and off may cause premature failure.
Using and Caring for Your Print Cartridges

Cleaning Print Cartridges

When Do You Need to Clean?

Clean the print cartridges if your printed page is missing lines or dots, or if it contains ink streaks.

If You See Missing Lines or Dots...

Clean the print cartridges from the HP DeskJet Utility window by doing the following:

1. Double-click the HP DeskJet Utility icon in the Utilities folder on your hard drive’s main directory.
2. Click the Clean panel, then click the Clean button. Follow the on-screen directions.

Note: Unnecessary cleaning wastes ink and shortens the life of the print cartridge.

If You See Ink Streaks...

Clean the print cartridges and the print cartridge cradle by following the instructions below.

1. Double-click the HP DeskJet Utility icon in the Utilities folder on your hard drive’s main directory.
2. Click the Clean panel, then click the Clean button. Follow the on-screen directions. If this does not prevent streaks, follow the instructions for “Manually Cleaning the Print Cartridges” on the next page.

Caution: Be careful not to get ink on your hands or clothing.
Manually Cleaning the Print Cartridges and Print Cartridge Cradle

In order to properly clean the print cartridges and cradle, you will need distilled or bottled water and cotton swabs or a similar lint-free absorbent material that will not stick to the cartridges.

Manually Cleaning the Print Cartridges

1. Press the Power Button to turn the printer on, then lift the top cover.

2. After the print cartridges move into an accessible position, unplug the power cord from the back of the printer.

Warning Keep new and used print cartridges out of the reach of children.

3. Remove the print cartridges and set them on a piece of paper with the ink nozzle plate facing up.

Caution Do NOT touch the print cartridge ink nozzles or copper contacts. Touching these parts will result in clogs, ink failure, and bad electrical connection. Also, do NOT remove the copper strips; these are required electrical contacts.

4. Dip a clean cotton swab into distilled water and squeeze any excess water from the swab.

5. Clean the face and edges of the print cartridge as shown. Do NOT wipe the nozzle plate.

6. Inspect the cartridge for fibers on the face and edges. If fibers are still present, repeat the cleaning process.

7. Repeat the cleaning process for the other print cartridge.

Caution Once you’ve removed the print cartridges, make sure that they are not outside of the print cartridge cradle longer than 30 minutes.
Using and Caring for Your Print Cartridges

Manually Cleaning the Print Cartridge Cradle

1. Using clean, moistened swabs, wipe the underside of each wall of the cradle.

2. Repeat until no ink residue is seen on a clean swab.

3. Reinsert the print cartridges, then close the printer’s top cover.

4. Load paper into the IN tray.

5. Reinsert the electrical power cord into the back of the printer.

6. Print a test page. Double-click the HP DeskJet Utility, icon in the Utilities folder on your hard drive’s main directory. Click the Test panel, then click the Test button.

Note: If streaking still appears, repeat the procedure until the test printout is clean. You will find additional maintenance tips at: http://www.hp.com/support/home_products
Using and Caring for Your Print Cartridges

Damage Resulting from Refilling the Print Cartridges

To get the best performance from your printer, Hewlett-Packard recommends using only genuine HP supplies for HP DeskJet printers, including genuine factory-filled HP print cartridges.

Damage resulting from the modification or refilling of HP print cartridges is specifically excluded from the coverage of HP printer warranties.

**Note:** When buying replacement print cartridges, check the part numbers carefully. The print cartridge numbers for your printer are:
- Black HP 51645 Series
- Tri-Color HP C6578 Series
Getting Help When Things Go Wrong

Troubleshooting Tips

It’s frustrating when things go wrong, but the following pages contain tips that can help you determine what the problem is and how to fix it.

Be sure cable connections are secure. Make sure that you are using the right cable for your operating system. Check if your question is similar to those listed below and then follow the instructions found in that section:

- The printer software won’t install, what’s wrong? See pages 36-37.
- Why won’t it print? See pages 38-40.
- What do the flashing lights mean? See page 41.
- Is there a problem with your printout? See pages 42-45.

The printer software won’t install, what’s wrong?

<table>

<thead>
<tr>
<th>What is the problem?</th>
<th>Possible cause</th>
<th>To solve the problem...</th>
</tr>
</thead>
</table>
| The printer is really slow.                   | Your computer may have less than the minimum system requirements.             | 1. Check the amount of RAM and processor speed in your computer. See “System Requirements” on page 57.  
2. Free up some space on your hard drive. Having less than 100MB of free space on your computer’s hard drive can mean longer processing times. |
|                                               | Too many software programs may be running at the same time.                     | Close all unnecessary software programs.               |
|                                               | You may be using outdated printer software.                                   | Check the printer driver you are using. Be sure to check the HP website at http://www.hp.com/support/home_products for the most recent software updates. |
|                                               | You may be printing a complex document containing graphics or photographs.    | Be patient. Large, complex documents containing graphics or photographs print slower than text-only documents. |
## What do the flashing lights mean?

<td>The Power Light 💡 is flashing.</td>
<td>Your printer may be receiving data.</td>
<td>Be patient.</td>
</tr>
</tbody>
</table>
| The Resume Light ⏭ is flashing. | You may be out of paper. | 1. Insert paper.  
2. Press the Resume Button ⏭. |
|                     | You may have a paper jam. | 1. Pull the paper out of either the IN tray or the OUT tray.  
2. Press the Resume Button ⏭ on the front of the printer.  
3. If you were printing labels, make sure a label did not become unglued from the label sheet while going through the printer.  
4. If the paper jam has cleared, print your document again.  
5. If the paper jam hasn’t cleared, open the Rear Access Door by turning the knob (counter clockwise) and removing the door.  
6. Pull the jammed paper out of the printer, then replace the Rear Access Door. |
|                     | You may be printing a two-sided document by hand and the first side has finished printing. | 1. Follow the on-screen directions for how to insert the paper.  
2. Press the Resume Button ⏭. |
| The Print Cartridge Status Light ⚪ is flashing. | The top cover may be open. | Close the top cover. |
|                     | There may be a problem with one of the print cartridges. | See “Print Cartridge Status” on page 27. |
| All of the lights are flashing. | The printer may need to be reset. | 1. Press the Power Button ⚪ to turn the printer off. Then press the Power Button ⚪ again to turn the printer back on.  
2. If that doesn’t solve the problem, press the Power Button ⚪ to turn the printer off.  
3. Unplug the printer.  
4. Plug the printer back in.  
5. Press the Power Button ⚪ to turn the printer on. |

</thead>
</table>
| Print quality is poor.| You may not be using the most appropriate media for the desired output.      | • Make sure that you are using media intended for HP DeskJet printers.  
                             • Print quality is dramatically improved if you print on paper specifically designed for a certain output (photographs, for example), rather than using plain paper. |
|                      | You may be printing on the wrong side of the media.                          | Make sure that the media is loaded print side down.                     |
|                      | You may not have selected the correct paper type in the printer software.    | Make sure that you have selected the correct paper type on the Paper Type/Quality dialog box. See “Paper Type/Quality” on page 9. |
|                      | You may be printing in Draft mode.                                           | If printing appears faded or dull, click Normal or Best instead of Draft on the Paper Type/Quality dialog box. See “Paper Type/Quality” on page 9. |
|                      | If you have smearing, you may be using too much ink.                         | 1 Click Normal or Draft instead of Best on the Paper Type/Quality dialog box. See “Paper Type/Quality” on page 9.  
                                             2 Reduce the amount of ink. From the HP DeskJet 900 Series Print dialog box, select the Ink Controls panel. Use the sliders to adjust ink volume.  
                                             3 Increase the dry time. From the HP DeskJet 900 Series Print dialog box, select the Ink Controls panel. Use the sliders to adjust dry time. |
|                      | You may be running out of ink.                                               | 1 Check the print cartridges status. See “Print Cartridge Status” on page 27.  
                                             2 If you are running out of ink, replace the print cartridge. See “Replacing Print Cartridges” on page 29. |
|                      | You may need to clean the print cartridges.                                  | See “Cleaning Print Cartridges” on page 32. |

</thead>
</table>
| Photos aren’t printing correctly when I use the Photo Tray. | You may not have fully engaged the Photo Tray. | 1 Push the Photo Tray Button down and slowly slide it toward the printer.  
2 Stop when you feel resistance. Pushing too far may crease your photo paper. |
|                       | You may not have inserted the photo media correctly. | Insert the photo media glossy side down. |
|                       | You may not have selected the appropriate Paper Type or Paper Size. | 1 From the Page Setup dialog box, select Photo 4 x 6 in., 102 x 152 mm (with tear-off tab) as the Paper Size. See “Page Setup - Controlling Page Layout” on page 6.  
2 In your software program, choose Print from the File menu. On the Paper Type/Quality panel of the Print dialog box, select HP Premium Plus Photo Paper, Glossy as the Paper Type. See “Print Dialog Box” on page 7.  
3 Click Save Settings.  
4 Print your document. |
|                       | You may not have selected Best print quality. | 1 Go to the Paper Type/Quality dialog box. See “Paper Type/Quality” on page 9.  
2 Select Best print quality. |
| Binding margin appears in the wrong place when trying to do Two-Sided Printing. | You may have selected the wrong paper orientation. | * Make sure you have selected the correct Binding option in the Layout panel of the Print dialog box. See “Layout” on page 9. |
Getting Help When Things Go Wrong

HP Customer Care

HP DeskJet printers set the standard for quality and reliability, so you have made an excellent choice. Should you need help, however, HP Customer Care’s award-winning service and support is nearby to provide expert advice on using your HP printer or to answer specific questions about a problem you are having. Whether online or by phone, you’ll find the support you need—and you’ll find it fast.

HP Customer Care Online

Click your way to a quick solution! HP Customer Care Online is a great place to go for answers to questions about your HP products. You’ll get instant access to everything from helpful printing tips to the latest product and software updates—24 hours a day, seven days a week, all at no charge to you.

If you have a modem connected to your computer and subscribe to an online service or have direct access to the Internet, you can obtain a wide variety of information about your printer at the following web sites:

English:  
http://www.hp.com/support/home_products

French:  
http://www.hp.com/cposupport/fr

German:  
http://www.hp.com/cposupport/de/

Japanese:  
http://www.jpn.hp.com/CPO_TC/eschome.htm

Portuguese:  
http://www.hp.com/cposupport/pt/

Spanish:  
http://www.hp.com/cposupport/es/

From HP Customer Care Online you can link to HP Customer Care User Forums and HP Customer Care Email.

HP Customer Care User Forums

They’re friendly. They’re informative. Check out our online user forums. Simply review existing messages left by other HP users to find the answers you’re looking for. You can also post your questions, then check back later for ideas and suggestions from knowledgeable users and system operators.

HP Customer Care by Email

Connect with HP via email and receive a personal reply from an HP Customer Care service technician. Responses are normally provided within 24 hours of receipt (excluding holidays). A great option for those non-urgent questions.
Getting Help When Things Go Wrong

Printer Software

Printer software (also referred to as a printer driver) allows your printer to talk with your computer. HP provides several options for getting printer software and software updates:

- Download the printer software by accessing the HP Customer Care Online web site. See “HP Customer Care Online” on page 46 for the addresses of the HP web sites.
- If you are in the U.S. and need a software update, you can download the printer software from: http://www.hp.com/support/home_products. If you do not have access to the web site, call (661) 257-5565. Software updates are available for the cost of the CDs plus shipping.
- If you are outside the U.S. and cannot download the driver from HP Customer Care Online (see page 46), call the HP Customer Care Center (page 47) nearest you.

HP Customer Care Repair

If your HP printer is ever in need of repair, simply call the HP Customer Care Center. A trained service technician will diagnose the problem and coordinate the repair process for you. This service is free during your printer’s standard warranty. Beyond the warranty period, repairs are charged on a time and materials basis.

HP Customer Care by Phone

Within 90 days from the time of your purchase, phone support is provided to you free of charge. However, if you are calling long distance, long-distance charges may apply. Before placing a call for help, please make sure that:

1 You have checked your Quick Start Poster and this User’s Guide for installation and troubleshooting tips.

2 You have checked HP Customer Care Online (see page 46) for product help.

3 If you cannot solve your problem using the above, then call an HP service technician while you’re in front of your computer and printer. Before you call, be sure you have the following information:

   - Your printer’s serial number (the label is on the printer’s bottom).
   - Your printer’s model number (the label is on the front of the printer).
   - The model of the computer.
   - The version of the printer and software program (if applicable).

Then we can help you with your questions immediately!

After the Free Phone Support Period

You can still get help from HP for a fee. Prices are subject to change without notice. HP Customer Care Online help (see page 46) on the internet is still available for free!

- For quick questions in the United States only, call (900) 555-1500. The charges are $2.50 per minute and begin when you connect with a service technician.
- For calls from Canada, or for calls in the U.S. that you anticipate might be longer than ten minutes in length, call (800) 999-1148. The fee is US $25 per call, charged to your Visa or MasterCard.
- If, during your phone call, it is determined that your printer requires repair and you are within your printer's Limited Warranty period (see page 61, Printer), you will not be charged for the phone support service. However, for countries where the above toll-free phone numbers are not available, the regular long-distance charges may apply.
Extended Warranty Options

If you would like to extend your printer coverage beyond the one year factory warranty, you have the following options:

- Consult your reseller to get extended coverage.
- If your reseller does not offer service contracts, please call HP directly and ask about our HP Service Agreements. In the U.S., call (800) 446-0522; in Canada, call (800) 268-1221. For HP Service Agreements outside the U.S. and Canada, contact your local HP Sales Office.

Setup Instructions

Using a USB Connection

You can connect your HP DeskJet 900 Series directly to your computer using a USB cable if your computer supports USB (Universal Serial Bus). Before you connect your printer to your computer, make sure your configuration meets these requirements:

- Your computer must support USB
- You will need a USB-compliant interface cable, such as HP Part Number C6518A
- Your computer must be turned on and running MacOS 8.1 or higher

1. Plug in the electrical power cord

2. Load white paper
3 Insert the print cartridges
   a Press Power Button to turn on printer.
   b Remove vinyl tape from print cartridges.
      Do NOT touch or remove copper strip on print cartridges.
   c Open top cover, then insert print cartridges.
   d Close top cover.
      Printer will print a calibration page.

4 Connect the USB cable
   - You can connect to any USB port.
   - A USB cable, such as an HP USB-Compliant Interface Cable (part number C6518A), should be purchased separately.
5 Install the printer software
   a Insert the HP Printer Software CD into your CD-ROM drive.
   b Double-click the HP DeskJet 900 Series Installer icon.
   [Image: HP DeskJet 900 Series Installer]
   c Follow the on-screen instructions to complete the installation. Your computer will restart when the installation is complete.
   d After your computer restarts, the HP DeskJet Utility (Select Printer) dialog box opens.
      Follow the instructions in this dialog box to select the DeskJet 900 Series printer.
Specifications

DeskJet 950C model no. C6428A
DeskJet 952C model no. C6428B

Print Technology
Drop-on-demand thermal inkjet printing

Black Text Print Speed *
Draft: 11 pages per min.

Mixed Text with Color Graphics Print Speed *
Draft: 8.5 pages per min.

Black TrueType™ Text Resolution (depends on paper type)
Draft: 300 x 600 dpi
Normal: 600 x 600 dpi
Best: 600 x 600 dpi

Color Resolution (depends on paper type)
Draft: 300 x 600 dpi
Normal: Color Layering
Best: Color Layering **

Software Compatibility
USB Connection: MacOS version 8.1 or later

System Requirements
USB Connection:
PowerPC MacOS computer with a USB port
MacOS version 8.1 or later
32 MB RAM
8 MB (minimum) available hard-disk space

Duty Cycle
3,000 pages per month

Memory
4MB built-in RAM

Buttons/Lights
Cancel Button
Print Cartridge Status Light
Resume Button and Light
Power Button and Light

I/O Interface
Centronics Parallel, IEEE 1284-Compliant with 1284-B receptacle
Universal Serial Bus

Dimensions
440 mm wide x 196 mm high x 370 mm deep
17.32 in wide x 7.72 in high x 14.56 in deep

Weight
5.94 kg (13.1 lb) without print cartridges

Operating Environment
Maximum operating temperature: 41 to 104°F, 5 to 40°C
Humidity: 5 to 80% RH noncondensing
Recommended operating conditions for best print quality:
59 to 95°F or 15 to 35°C
20 to 80% RH noncondensing
Storage temperature: -40 to 140°F, -40 to 60°C

Power Consumption
2 watts maximum when off
4 watts average non-printing
25 watts average when printing

Power Requirements
Input Voltage: 100 to 240 VAC (+10%)
Input Frequency: 50/60 Hz (+3 Hz)
Automatically accommodates the world-wide range of AC line voltages and frequencies.

Declared noise emissions in accordance with ISO 9296
Sound power level, LWAd (1B=10dB):
5.9 B in normal mode.
Sound pressure level, LpAm (bystander positions):
46 dB in normal mode.

* Approximate figures. Exact speed will vary depending on the system configuration, software program, and document complexity.
** A High Resolution Mode of 2400 x 1200 dpi is also available.

Minimum Printing Margins

The printer cannot print outside a certain area of the page, so you must make sure the contents of your document fall within the printable area.

When you use nonstandard paper sizes and select the Custom Paper Size setting from the Page Setup dialog box, the paper width must be between 77 and 215 mm (3 and 8.5 inches) and the paper length must be between 127 and 356 mm (5 and 14 inches).

Regulatory Notices

Hewlett-Packard Company

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Pursuant to Part 15.21 of the FCC Rules, any changes or modifications to this equipment not expressly approved by Hewlett-Packard Company may cause harmful interference, and void your authority to operate this equipment. Use of a shielded data cable is required to comply with the Class B limits of Part 15 of the FCC Rules.

For further information, contact:

Hewlett-Packard Company
Manager of Corporate Product Regulations
3000 Hanover Street
Palo Alto, Ca 94304
(415) 857-1501

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, can cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

LED Indicator Statement

The display LEDs meet the requirements of EN 60825-1.

この装置は、情報処理装置等電波障害自主規制協議会（VCCI）の基準に基づくクラスB情報技術装置です。この装置は、家庭環境で使用することを目的としていますが、この装置がラジオやテレビジョン受信機に近接して使用されると受信障害を引き起こすことがあります。取り扱い説明書に従って正しい取り扱いをして下さい。

Limited Warranty Statement

HP Product                          Duration of Limited Warranty
Software                            90 Days
Ink cartridges                      90 Days
Printer                             1 Year

A. Extent of Limited Warranty
1. Hewlett-Packard (HP) warrants to the end-user customer that the HP products specified above will be free from defects in materials and workmanship for the duration specified above, which duration begins on the date of purchase by the customer. Customer is responsible for maintaining proof of date of purchase.
2. For software products, HP’s limited warranty applies only to a failure to execute programming instructions, HP does not warrant that the operation of any product will be uninterrupted or error free.
3. HP’s limited warranty covers only those defects which arise as a result of normal use of the product, and do not apply to any:
   a. Improper or inadequate maintenance or modification;
   b. Software, interfacing, media, parts, or supplies not provided or supported by HP;
   c. Operation outside the product’s specifications.
4. For HP printer products, the use of a non-HP or refilled ink cartridge or a refilled ink cartridge does not affect either the warranty to the customer or any HP support contract with the customer. However, if printer failure or damage is attributable to the use of a non-HP or refilled ink cartridge, HP will charge its standard time and materials charges to service the printer for the particular failure or damage.
5. If HP receives, during the applicable warranty period, notice of a defect in any hardware product which is covered by HP’s warranty, HP shall replace the defective product. If HP receives, during the applicable warranty period, notice of a defect in any hardware product which is covered by HP’s warranty, HP shall either repair or replace the defective product, at HP’s option.
6. If HP is unable to repair or replace, as applicable, a defective product which is covered by HP’s warranty, HP shall, within a reasonable time after being notified of the defect, refund the purchase price for the product.
7. HP shall have no obligation to repair, replace, or refund until the customer returns the defective product to HP.
8. Any replacement product may be either new or like-new, provided that it has functionality at least equal to that of the product being replaced.
9. HP’s limited warranty is valid in any country where the covered HP product is distributed by HP except for the Middle-East, Africa, Argentina, Brazil, Mexico, Venezuela, and France’s “Departements D’Outre-Mer”; for those excepted areas, the warranty is valid only in the country of purchase. Contracts for additional warranty services, such as on-site service, may be available from any authorized HP service facility where the product is distributed by HP or by an authorized importer.

B. Limitations of Warranty
1. TO THE EXTENT ALLOWED BY LOCAL LAW, NEITHER HP NOR ITS THIRD PARTY SUPPLIERS MAKE ANY OTHER WARRANTY OR CONDITION OF ANY KIND, WHETHER EXPRESS OR IMPLIED, WITH RESPECT TO THE HP PRODUCTS, AND SPECIFICALLY DISCLAIM THE IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY, SATISFACTORY QUALITY, AND FITNESS FOR A PARTICULAR PURPOSE.

C. Limitations of Liability
1. To the extent allowed by local law, the remedies provided in this Warranty Statement are the customer’s sole and exclusive remedies.
2. TO THE EXTENT ALLOWED BY LOCAL LAW, EXCEPT FOR THE OBLIGATIONS SPECIFICALLY SET FORTH IN THIS WARRANTY STATEMENT, IN NO EVENT SHALL HP OR ITS THIRD PARTY SUPPLIERS BE LIABLE FOR DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, WHETHER BASED ON CONTRACT, TORT, OR ANY OTHER LEGAL THEORY AND WHETHER ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

D. Local Law
1. This Warranty Statement gives the customer specific legal rights. The customer may also have other rights which vary from state to state in the United States, from province to province in Canada, and from country to country elsewhere in the world.
2. To the extent that this Warranty Statement is inconsistent with local law, this Warranty Statement shall be deemed modified to be consistent with such local law. Under such local law, certain disclaimers and limitations of this Warranty Statement may not apply to the customer. For example, some states in the United States, as well as some governments outside the United States (including provinces in Canada), may:
   a. Preclude the disclaimers and limitations in this Warranty Statement from limiting the statutory rights of a consumer (e.g., the United Kingdom);
   b. Otherwise restrict the ability of a manufacturer to enforce such disclaimers or limitations;
   c. Grant the customer additional warranty rights, specify the duration of implied warranties which the manufacturer cannot disclaim, or not allow limitations on the duration of implied warranties.
3. FOR CONSUMER TRANSACTIONS IN AUSTRALIA AND NEW ZEALAND, THE TERMS IN THIS WARRANTY STATEMENT, EXCEPT TO THE EXTENT LAWFULLY PERMITTED, DO NOT EXCLUDE, RESTRICT, OR MODIFY, AND ARE IN ADDITION TO, THE MANDATORY STATUTORY RIGHTS APPLICABLE TO THE SALE OF HP PRODUCTS TO SUCH CUSTOMERS.

HP Year 2000 Warranty

Subject to all of the terms and limitations of the HP Limited Warranty Statement stated above, HP warrants that this HP Product will be able to accurately process date data (including, but not limited to, calculating, comparing, and sequencing) from, into, and between the twentieth and twenty-first centuries, and the years 1999 and 2000, including leap year calculations, when used in accordance with the Product documentation provided by HP (including any instructions for installing patches or upgrades), provided that all other products (e.g., hardware, software, firmware) used in combination with such HP Products(s) properly exchange date data with it. The duration of the Year 2000 warranty extends through January 31, 2001.

Environmental Statement

Hewlett-Packard continuously improves the design processes of HP DeskJet printers to minimize the negative impact on the office environment and on the communities where printers are manufactured, shipped, and used. Hewlett-Packard has also developed processes to minimize the negative impact of the disposal of the printer at the end of printing life.

Reduction and Elimination

Paper Use: The printer’s automatic/manual two-sided printing capability reduces paper usage and the resulting demands on natural resources. This printer is suited for the use of recycled papers according to DIN 19 309.

Ozone: Ozone-depleting chemicals such as CFCs have been eliminated from Hewlett-Packard manufacturing processes.

Recycling

Design for recycling has been incorporated into this printer. The number of materials has been kept to a minimum while ensuring proper functionality and reliability. Dissimilar materials have been designed to separate easily. Fasteners and other connections are easy to locate, access, and remove using common tools. High priority parts have been designed to access quickly for efficient disassembly and repair. Plastic parts have been primarily designed in no more than two colors to enhance recycling options. A few small parts are colored specifically to highlight customer access points.

Printer Packaging: The packaging materials for this printer have been selected to provide maximum protection for the least cost possible, while attempting to minimize environmental impact and facilitate recycling. The rugged design of the HP DeskJet printer assists in minimizing both packaging materials and damage rates.

Plastic parts: All major plastics and plastic parts are marked according to international standards. All plastic parts used in the printer housing and chassis are technically recyclable and all use a single polymer.

Product Longevity: To ensure the longevity of your DeskJet Printer, HP provides the following:

- Extended Warranty - HP SupportPack provides coverage for the HP hardware and product and all HP supplied internal components. HP SupportPack must be purchased by the customer within 30 days of purchase. Contact the nearest HP dealer about this service.
- Spare Parts and Consumables are available for five years after production has stopped.
- Product Take-back - To return this product and ink cartridges to HP at the end of its useful life, call your local HP Sales or Service Office for instructions.

Energy Consumption

This printer was designed with energy conservation in mind. This printer averages 4 watts in stand-by mode. Not only does this save natural resources, but it also saves money without affecting the high performance of this printer. This product qualifies for the ENERGY STAR Program (U.S. and Japan). ENERGY STAR is a voluntary program established to encourage the development of energy-efficient office products. ENERGY STAR is a US registered service mark of the US EPA. As an ENERGY STAR partner, Hewlett-Packard Company has determined that this product meets ENERGY STAR Guidelines for energy efficiency.

Energy consumption in off-mode: When the printer is off, a minimal amount of energy is still being consumed. Energy consumption can be prevented by turning the printer power off, then disconnecting the end of the printer power cord from the electrical source.
