

hp dvd-writer dvd100i

data sheet

	Gather your audience and show your original DVD creations. The HP dvd-writer dvd100i easily stores your favorite original video, photo, and music files. You can record up to 3 hours of video or save photos, graphics, music or data to a 4.7 GB DVD disc. Create DVD movies with the included easy-to-use software. View DVD scenes quickly without having to fast forward or rewind. Transfer digital or analog video directly from your camcorder to a DVD disc (requires video capture capability on PC). And better yet—write to either DVDs or CDs. The dvd100i also offers 12x10x32x CD-RW capabilities. You can record up to 80 minutes of original music or store up to 700 MB of photos or data on a single CD. The dvd100i includes HP's buffer underrun prevention technology which enables you to reliably create a DVD+RW or CD while you work on other tasks on your PC. Create custom DVDs or CDs with the DVD+RW and CD-RW* drive. It's your choice.
