## Where to Get Help

### Follow these steps when you need help from HP:

- 1** Check the setup poster and the *Quick Start Guide* for help with setting up and using your PC.
- 2** For faster help, be sure to register your HP Pavilion home PC by e-mail, on the Web at <http://www.register.hp.com> or by phone.
- 3** Use Help on your PC to get help with your hardware and software. Click **Start** and then click **Help and Support**.
- 4** For help online, go to the HP Customer Care Center Web site at <http://www.hp.com/cposupport>
- 5** If you have not solved the problem, call the HP Customer Care Center at **208-323-4300** (U.S.) or **905-206-4663** (Canada).

#### HP Support Web site:

<http://www.hp.com/cposupport>

#### HP Customer Care Center

**U.S.: 208-323-4300**

**Canada: 905-206-4663**

Hours: 24 hours, 7 days

#### HP Registration Web site:

# Warranty and License Information

## 3 Year Warranty Upgrade

### Your support number is: 1-877-439-9509 in the U.S.

This warranty replaces any other warranty that came with your HP Pavilion home PC.

### HP Customer Care

Easy to reach. Easy to use. HP Customer Care is our promise to help you get the most from owning your HP Pavilion. Whether by tools located on your PC, by Web, by phone, or through your local retailer, you'll find what you need. And you'll find it fast. Be sure to register your HP Pavilion to get the full benefits of HP Customer Care. The brief information you provide helps HP Customer Care respond to you faster with more personalized proactive support options.

### Problems? HP Will Help

Your new HP Pavilion computer is built to work right now — and for many years to come. But it is a complex, powerful machine, and sometimes things go wrong. If that happens to your computer, Hewlett-Packard is ready to help.

### What to Do First: See What You Can Do

There's lots of helpful information included with your HP Pavilion. First look at Help on your Windows® desktop (to access it, click **Start** on the taskbar and then **Help and Support**). It contains more detailed help and will give you suggestions on how to fix the problem. Next, try a little surfing! The HP At Home Web site, at <http://hp-at-home.com>, has updated software, tips and tricks, and solutions to common problems.

### What to Do Next: Call HP Customer Care Center

If these steps don't help, you can reach a real, knowledgeable human by calling the HP Customer Care Center toll-free at 1-877-439-9509 in the U.S. Technical phone assistance to help diagnose potential hardware issues is free for as long as you own the HP Pavilion. The HP Customer Care Center is available 24 hours a day and 7 days a week.

### And, if Necessary: Get Repair

If HP determines that your computer needs to be repaired or to have parts replaced, your options are:

- 1 Self-Repair** — You can easily replace many of the HP Pavilion parts yourself. This is the fastest method of repair, as many times we can send the part directly to your home or business in a few days. We pay the shipping and handling. This service is free for the duration of the hardware warranty period.
- 2 Send-In Repair Service** — You can ship your PC to the HP Central Repair Center. We pay for the round-trip shipping and handling. This service is free for the duration of the hardware warranty period.
- 3 Carry-In Repair Service** — You can bring your computer to an HP Pavilion authorized service provider and pick it up when it is repaired. Find the nearest repair provider online, or call us and we'll give you the location. This service is free for the duration of the hardware warranty period.

There are a few limitations and exclusions to this warranty (as well as some important details) and you'll find them described, in legal language, beginning on the next page.

## The Legal Language

### Hewlett-Packard Limited Warranty Statement

#### DURATION OF LIMITED WARRANTY

Hardware — Parts and Labor	3 years
Technical phone assistance to diagnose potential hardware issues	As long as YOU (the original owner) own the HP Pavilion. The Technical phone assistance program is not transferable.

HP warrants to you, the end-user customer, that HP hardware will be free from defects in materials and workmanship after the date of purchase, for the duration of the hardware warranty period. If HP receives notice of such defects during the warranty period, HP will, at its option, either repair or replace products that prove to be defective. Replacement parts or products may be either new or like new, and will be warranted for the remainder of the original hardware parts warranty period or thirty (30) days from the date of shipment of the replacement parts or products, whichever is longer.

HP warrants to you, the end-user customer, that HP software will not fail to execute its programming instructions, for thirty (30) days from the date of purchase, due to defects in material and workmanship when properly installed and used. If HP receives notice of such defects during the warranty period, HP will replace software media that does not execute its programming instructions due to such defects.

HP warrants the operation of a network interface card (NIC), only if factory preinstalled by HP, as follows: HP will make sure the correct drivers are installed; HP will make sure that the HP Pavilion recognizes the NIC. NO CONNECTIVITY ISSUES ARE SUPPORTED.

HP does not warrant that the operation of HP products will be uninterrupted or error-free. If HP is unable, within a reasonable time, to repair or replace any product to a condition as warranted, you will be entitled to a refund of the purchase price on a prorated basis upon prompt return of the product. Refunds within the first 3 months of ownership will be refunded at 100% of purchase price. Refunds within 3–6 months of ownership will be refunded at 85% of purchase price. Refunds within 6–9 months of ownership will be refunded at 55% of purchase price. Refunds within 9–12 months will be refunded at 35% of purchase price.

HP products may contain remanufactured parts or parts which may have been subject to incidental use. Such parts are equivalent to new in performance.

Warranty does not apply to defects resulting from (a) improper or inadequate maintenance or calibration, (b) software, interfacing, parts, or supplies not supplied by HP, (c) unauthorized modification or misuse, (d) computer viruses of any origin, (e) operation outside of the published environmental specifications for the product, (f) improper site preparation or maintenance or (g) unplanned acts of nature, such as floods, tornadoes, lightning strikes, hurricanes, or earthquakes.

HP MAKES NO OTHER EXPRESS WARRANTY OR CONDITION WHETHER WRITTEN OR ORAL. TO THE EXTENT ALLOWED BY LOCAL LAW, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, SATISFACTORY QUALITY, OR FITNESS FOR A PARTICULAR PURPOSE IS LIMITED TO THE DURATION OF THE EXPRESS WARRANTY SET FORTH ABOVE. Some countries/regions, states, or provinces do not allow limitations on the duration of an implied warranty, so the above limitation or exclusion might not apply to you. This warranty gives you specific legal rights and you might also have other rights that vary from country/region to country/region, state to state, or province to province.

HP's limited warranty is valid in any country/region or locality where HP has a support presence for this product and where HP has marketed this product. The level of warranty service you receive may vary according to local standards. HP will not alter form, fit, or function of the product to make it operate in a country/region for which it was never intended to function for legal or regulatory reasons.

TO THE EXTENT ALLOWED BY LOCAL LAW, THE REMEDIES IN THIS WARRANTY STATEMENT ARE YOUR SOLE AND EXCLUSIVE REMEDIES. EXCEPT AS INDICATED ABOVE, IN NO EVENT WILL HP OR ITS SUPPLIERS BE LIABLE FOR LOSS OF DATA OR FOR DIRECT, SPECIAL, INCIDENTAL, CONSEQUENTIAL (INCLUDING LOST PROFIT OR DATA), OR OTHER DAMAGE, WHETHER BASED IN CONTRACT, TORT, OR OTHERWISE. Some countries/regions, states, or provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

The above warranty is transferable upon sale except regarding the Technical phone assistance warranty, which is available to the original owner of the HP product only and is not transferable.

## **Customer Responsibilities**

You may be required to run HP-supplied diagnostic programs before a replacement part is shipped, a Send-in repair is scheduled, or Carry-in service is provided. For Send-in repair, you must ship your computer to the HP Central Repair Center. For Carry-in service, you must take your computer to an HP Pavilion authorized service provider.

You are responsible for the security of your proprietary and confidential information and for maintaining a procedure external to the products for reconstruction of lost or altered files, data, or programs. You should back up all data on your system before calling the HP Customer Care Center. Before obtaining warranty repair service, the customer is responsible for removing any components that were added after the purchase of the system. HP will not be responsible for components that the customer doesn't remove.

## **Obtaining Hardware Warranty Repair Service**

For the duration of the hardware parts and labor warranty, repair service includes Consumer-replaceable Parts service, Carry-in, or Send-in service (depending on your location) as described below. To obtain hardware warranty service, call the HP Customer Care Center toll-free at 1-877-439-9509 in the U.S. You must be prepared to supply proof-of-purchase date.

## **Consumer-Replaceable Parts Service (Self-Repair)**

Consumer-replaceable components — such as the keyboard, mouse, and monitor — may be serviced through expedited part shipment. In this event, HP will send you the component.

## **Send-In Repair Service**

Service can be obtained by shipping your PC to the HP Central Repair Center. The PC will be repaired and returned to you.

## **Carry-In Repair Service**

Service can be obtained by bringing your PC to an HP Pavilion authorized service provider.

ATTENTION: USE OF THE SOFTWARE IS SUBJECT TO THE HP SOFTWARE LICENSE TERMS SET FORTH ON THE FOLLOWING PAGE. USING THE SOFTWARE INDICATES YOUR ACCEPTANCE OF THESE LICENSE TERMS. IF YOU DO NOT ACCEPT THESE LICENSE TERMS, YOU MAY RETURN THE SOFTWARE FOR A FULL REFUND. IF THE SOFTWARE IS BUNDLED WITH ANOTHER PRODUCT, YOU MAY RETURN THE ENTIRE UNUSED PRODUCT FOR A FULL REFUND.

The HP Software Product License Agreement will govern all Software, which is provided to you with the exception of Microsoft® Software. Microsoft Products are licensed to you under the Microsoft End User License Agreement (EULA) contained in the Microsoft documentation online.

## **HP Software Product License Agreement**

The following License Terms govern your use of the accompanying Software unless you have a separate signed agreement with HP.

### **License**

**GRANT** — HP grants you a license to use one copy of the Software. "Use" means storing, loading, installing, executing, or displaying the Software. You may not modify the Software or disable any licensing or control features of the Software. If the Software is licensed for "concurrent use," you may not allow more than the maximum number of authorized users to Use the Software concurrently.

**OWNERSHIP** — The Software is owned and copyrighted by HP or its third-party suppliers. Your license confers no title to, or ownership in, the Software and is not a sale of any rights in the Software. HP's third-party suppliers may protect their rights in the event of any violation of these License Terms.

### **Copies**

**ADAPTATIONS** — You may make copies or adaptations of the Software only for archival purposes or when copying or adaptation is an essential step in the authorized Use of the Software. You must reproduce all copyright notices in the original Software on all copies or adaptations. You may not copy the Software onto any public network.

### **No Disassembly**

**DECRYPTION** — You may not disassemble or decompile the Software unless HP's prior written consent is obtained. In some jurisdictions, HP's consent may not be required for limited disassembly or decompilation. Upon request, you will provide HP with reasonably detailed information regarding any disassembly or decompilation. You may not decrypt the Software unless decryption is a necessary part of the operation of the Software.

**TRANSFER** — Your license will automatically terminate upon any transfer of the Software. Upon transfer, you must deliver the Software, including any copies and related documentation, to the transferee. The transferee must accept these License Terms as a condition to the transfer.

**TERMINATION** — HP may terminate your license upon notice for failure to comply with any of these License Terms. Upon termination, you must immediately destroy the Software, together with all copies, adaptations, and merged portions in any form.

**EXPORT REQUIREMENTS** — You may not export or re-export the Software or any copy or adaptation in violation of any applicable laws or regulations.

### **Restricted Rights**

**RIGHTS** — The Software and any accompanying documentation have been developed entirely at private expense. They are delivered and licensed as "commercial computer software" as defined in DFARS 252.227-7013 (Oct 1988), DFARS 252.211-7015 (May 1991), or DFARS 252.227-7014 (Jun 1995), as a "commercial item" as defined in FAR 2.101(a), or as "Restricted computer software" as defined in FAR 52.227-19 (Jun 1987) (or any equivalent agency regulation or contract clause), whichever is applicable. You have only those rights provided for such Software and any accompanying documentation by the applicable FAR or DFARS clause or the HP standard software agreement for the product involved.

### Supplementary Information:

The product herewith complies with the requirements of the following Directives and carries the CE marking accordingly.

— the R&TTE Directive 1999/5/EC

- 1) The Product was tested in a typical configuration with Hewlett-Packard Personal Computer and peripherals.
- 2) This Device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

## Operating Specifications

**Electrical ratings:** Models: 100 series, 300 series, 400 series, 500 series, 600 series, and 700 series  
100–127 V<sub>~</sub>/200–240 V<sub>~</sub>,  
4/2 A, 50/60 Hz

**Operating temperature:** 5° to 35° C

(On models with hp dvd writer drives, the operating temperature is 5° to 30° C)

**Storage temperature:** –40° to 70° C

**Operating humidity:** 15 to 80% @ 26° C

**Storage humidity:** 90% @ 65° C (non-condensing)

**Operating altitude:** 0–2286 m

**Storage altitude:** 0–4572 m

Batteries are delivered with this product. When empty, do not throw them away but collect as small chemical waste.

Bij dit produkt zijn batterijen geleverd. Wanneer deze leeg zijn, moet u ze niet weggooien maar inleveren als KCA.

## Regulatory and Safety Information

**Warning:** *The HP Pavilion is heavy; be sure to use ergonomically correct lifting procedures when moving the computer.*

**Warning:** *Electrostatic discharge (ESD) can damage disk drives, add-in cards, and other components. If an ESD station is not available, wear a wrist strap attached to a metal part of the computer. Place cards on a conductive foam pad or inside the conductive wrapper they came in; do not place the cards on top of the wrapper.*

**Warning:** *Do not operate the system with the cover removed. Always replace the cover before turning on the system.*

**Warning:** *Please read the "Additional Safety Information" located later in this document before installing and connecting your system to the electrical power system.*

**Warning:** *Using the wrong type of memory module could damage the system.*

**Warning:** *Do not pull the memory module out of the socket. Use the retaining clips to eject the module.*

**Warning:** *Do not overload the system by installing add-in cards that draw excessive current. The system is designed to provide 2 amps (average) of +5 V power for each board/card in the computer. The total +5 V current draw in a fully loaded system (one with all add-in card slots filled) must not exceed the total number of slots multiplied by 2 amps.*

**Warning:** *Be careful of the sharp edges on the expansion slot cover.*

**Warning:** *There is danger of explosion if the battery is incorrectly replaced. Replace only with the same, or equivalent, type of battery. Discard used batteries according to the manufacturer's instructions.*

## FCC Regulatory and Safety Information (USA Only)

Federal Communications Commission (FCC) Radio Frequency Interference Statement

**Warning:** *This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to correct the interference by one or more of the following measures:*

- **Reorient or relocate the receiving antenna.**
- **Increase the separation between the equipment and the receiver.**
- **Connect the equipment into an outlet that is on a circuit different from the receiver.**
- **Consult the dealer or an experienced radio/TV technician for help.**

**Hewlett-Packard's system RFI and Radiated Immunity tests were conducted with HP-supported peripheral devices and HP-shielded cables, such as those you receive with your system. Changes or modifications not expressly approved by Hewlett-Packard could void the user's authority to operate the equipment. To comply with the limits for an FCC Class B computing device, always use shielded signal cables and the power cord supplied with this unit.**

## Consumer Information and FCC Requirements

### Telephone Connection

- This equipment complies with Part 68 of the Federal Communications Commission rules. These rules permit this device to be directly connected to the telephone network. Standardized jacks are used for these connections. This equipment should not be used on party lines or coin lines.
- If this device is malfunctioning, it may also cause harm to the telephone network; this device should be disconnected until the source of the problem can be determined and until it has been repaired. If this is not done, the telephone company may temporarily disconnect your service.

- The telephone company may make changes in its technical operations and procedures. If such changes affect the compatibility or use of this device, the telephone company is required to give adequate notice of the changes.
- If the telephone company requests information on what equipment is connected to their lines, inform them of:
  - a The telephone number this unit is connected to
  - b The ringer equivalence number
  - c The USOC jack required: RJ-11C
  - d The FCC Registration Number

Items (b) and (c) are indicated on the label. The ringer equivalence number (REN) is used to determine how many devices can be connected to your telephone line. In most areas, the sum of the RENs on any one line should not exceed five (5.0). If too many devices are attached, they may not ring properly.

- In the event of equipment malfunction, Hewlett-Packard or an authorized HP Personal Computer Dealer Repair Center should perform all repairs. It is the responsibility of users requiring service to report the problem to HP's Home Products Division, or to one of our authorized agents. Service can be obtained by calling the HP Customer Care Center at 208-323-4663 (United States).

### **Statement of Fax Branding**

The Consumer Protection Act of 1991 makes it unlawful for any person to use a computer or other electronic device to send any message via telephone fax machine, unless it clearly contains: a margin at the top or bottom of each transmitted page or on the first page of the transmission, the date and time it is sent, identification of the business or other entity, or individual sending the message, the telephone number of the sending machine or such business, entity, or individual.

### **ENERGY STAR Compliance**

Hewlett-Packard Pavilion PCs and Monitors marked with the ENERGY STAR® logo on the packaging box qualify with the U.S. Environmental Protection Agency's ENERGY STAR guidelines for energy efficiency.

Products with the ENERGY STAR label are designed to use less energy, help you save money on utility bills, and help protect the environment.

ENERGY STAR® is a registered trademark owned by the U.S. government.

## Canada Department of Communications (DOC) Notice

### Telephone Connection

The Canada Department of Communications label identifies certified equipment. This certification means that the equipment meets certain telecommunications network protective, operational, and safety requirements. The department does not guarantee the equipment will operate to the user's satisfaction.

Before installing this equipment, the user should ensure it is permissible to connect it to the facilities of the local communications company. The equipment must be installed using an acceptable method of connection. In some cases, the company's inside wiring associated with a single line individual service may be extended by means of a certified connector assembly (telephone extension cord). The customer should be aware that compliance with the above conditions may not prevent degradation of service in some situations.

Repairs to certified equipment should be made by an authorized Canadian maintenance facility designated by the supplier. Any repairs or alterations made by the user to this equipment, or equipment malfunctions, may give the telecommunications company cause to request that the user disconnect the equipment.

Users should ensure, for their own protection, that the electrical ground connections of the power utility, telephone lines, and internal metallic water pipe systems, if present, are connected together. This precaution may be particularly important in rural areas.

**Warning: Users should not attempt to make such connections themselves, but should contact the appropriate electrical inspection authority or electrician, as appropriate.**

**Warning: The Load Number .9 assigned to each terminal device denotes the percentage of the total load to be connected to a telephone loop; this is used by the device to prevent overloading. The termination on a loop may consist of any combination of devices, subject only to the requirement that the sum of the Load Numbers does not exceed 100.**

### DOC Statement (Canada Only)

This Class B digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Regulations.

### Additional Safety Information

This product has not been evaluated for connection to an "IT" power system (an AC distribution system with no direct connection to earth, according to IEC 60950).

## AC Power Safety Warning

-  **Warning:** *Install the computer near an AC outlet. The AC power cord is your HP Pavilion's main AC disconnecting device and must be easily accessible at all times. For your safety, the power cord provided with your system has a grounded plug. Always use the power cord with a properly grounded wall outlet, to avoid the risk of electrical shock.*
  
-  **Warning:** *Your system is provided with a voltage select switch for use in a 115 or 230 Vac power system. The voltage select switch has been pre-set to the correct voltage setting for use in the particular country/region where it was initially sold. Changing the voltage select switch to the incorrect position can damage your PC and void any implied warranty.*
  
-  **Warning:** *To reduce the possibility of an electric shock from the telephone network, plug your computer into the AC outlet before connecting it to the telephone line. Also, disconnect the telephone line before unplugging your computer from the AC power outlet.*
  
-  **Warning:** *Always disconnect the modem cord from the telephone system before installing or removing your computer cover.*
  
-  **Warning:** *Do not operate the computer with the cover removed.*
  
-  **Warning:** *The power supply is not user-serviceable. To prevent damage to the power supply, have a qualified person repair or replace it. All other components are user-serviceable.*
  
-  **Warning:** *Electrostatic discharge (ESD) can damage disk drives, add-in cards, and other components. If an ESD station is not available, wear a wrist strap attached to a metal part of the computer. Place cards on a conductive foam pad or inside the card wrapper, if possible, but never on the card wrapper.*
  
-  **Warning:** *For your safety, always unplug the system from its power source and from any telecommunications systems (such as phone lines), networks, or modems before performing any of the procedures described in this guide. Failure to do so may result in personal injury or equipment damage. Hazardous voltage levels are inside the power supply and modem of this product.*

## Lithium Battery Caution

**Warning: The PC uses a lithium battery, type CR2032. There is danger of an explosion if the battery is incorrectly replaced. Replace only with the same, or equivalent, type recommended by the manufacturer. Dispose of used batteries according to the manufacturer's instructions.**

## Laser Safety Statement

### Class 1 LED Product

The CD-ROM and DVD-ROM drives contain a laser system and are classified as a "Class 1 Laser Product" under a U.S. Department of Health and Human Services (DHHS) Radiation Performance standard according to the Radiation Control for Health and Safety Act of 1968.

Should the unit ever require maintenance, contact an authorized service location.

**Warning: Use of controls, adjustments, or performance procedures other than those specified in the Upgrading and Servicing the PC guide may result in hazardous radiation exposure. To prevent direct exposure to laser beam, do not try to open the enclosure of the CD-ROM or DVD-ROM.**

## TV Antenna Connectors Protection

### External Television Antenna Grounding

If an outside antenna or cable system is connected to the product, be sure the antenna or cable system is electrically grounded so as to provide some protection against voltage surges and built-up static charges. Article 810 of the National Electrical Code, ANSI/NFPA 70, provides information with regard to proper electrical grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna-discharge unit, size of grounding conductors, location of antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.

### Lightning Protection

For added protection of any Hewlett-Packard product during a lightning storm, or when it is left unattended and unused for long periods of time, unplug the product from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the product from lightning and power line surges.

Antenna Grounding

#### Antenna Grounding

Reference	Grounding Component
1	Electric Service Equipment
2	Power Service Grounding Electrode System (NEC Art 250, Part H)
3	Ground Clamps
4	Grounding Conductors (NEC Section 810-21)
5	Antenna Discharge Unit (NEC Section 810-20)
6	Ground Clamp
7	Antenna Lead in Wire

### Power Lines

An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits.

**Warning: When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them could be fatal.**
