Installing Software for the Wireless Set

You need to install the software from the CD that came with this wireless set.

Your PC must have the Microsoft® Windows® XP operating system to use the wireless set.

1 Insert the CD into a CD or DVD drive. The CD should automatically begin to unzip and install the software. Continue with step 5. If the CD does not automatically run, continue with step 2.

2 Click Start on the taskbar and click My Computer.

3 Double-click the drive icon that has the inserted CD. This will automatically start the installation. You may have to scroll down to see the drive.

4 If the installation did not start automatically, double-click the Autorun.exe icon.

5 Click the Yes button to continue.

6 Click Next.

7 Click Install. This may take a few minutes.

8 Choose Yes to restart your PC, and then click Finish.
