

Enabling Thai Language

Your PC comes with Thai language preinstalled and ready to enable:

- 1 Click **Start** on the taskbar.
- 2 Click **Control Panel**.
- 3 Click **Date, Time, Language, and Regional Options**, if it is present, and then double-click **Regional and Language Options**.
- 4 Click the **Advanced** tab.
In the Language for non-Unicode programs drop-down list, select **Thai**.
- 5 Click **Apply**.
- 6 Click **Yes**, and then **Yes** again to proceed and restart your PC.

The Windows taskbar should now have a language icon showing the language options on your PC.
