1. **Wired/Wireless Network**
   - *Start Here - CHOOSE CORRECT POSTER*
   - **Choose the poster that matches your equipment.**
     - If you have an existing Windows or Macintosh Network setup, follow this poster.
     - If you do not have a network, see the Direct Connect (USB) poster.

2. **Attach cover and lift display**
   - **Place the cover over the top of the HP PSC.** Make sure the buttons are visible.
   - **Gently press down on all sides of the cover.**

3. **Remove tray and load plain white paper**
   - **Lift the print carriage door up until it catches. Lift the blue and gray latches.**

4. **Connect power cords**
   - **Connect the power supply to the HP PSC, and then to the power cord.** Plug into the wall.

5. **Connect supplied phone cord**
   - **You must connect one end of the supplied phone cord to the phone jack on the left (1-LINE) and the other end to a wall jack.**
   - **To connect an answering machine or use your own phone cord, see the Reference Guide.**

6. **Turn on and set language and country/region**
   - **Turn power on.**
   - **Select your language, and then press OK.**
   - **Select your country/region, and then press OK.**

7. **Insert print cartridges**
   - **Lift the print carriage door up until it catches. Lift the blue and gray latches.**
   - **Remove the bright pink tape from both of the print cartridges.** Do not touch the gold-colored contacts or retape the cartridges.
   - **Hold the black print cartridge with the label on top as shown. Slide the cartridge underneath the metal bar on the right (gray latch) side of the print carriage.**
   - **Hold the color print cartridge with the label on top as shown. Slide the cartridge into the left (blue latch) side of the print carriage.**

8. **Align the print cartridges**
   - **Make sure both latches are locked into position. Close the door.**
   - **Press OK on the front panel to begin alignment. Wait a couple of minutes. After a page prints, alignment is complete. Discard or recycle this page.**

9. **Choose Wired or Wireless setup**
   - **Match the network type to your existing network.**
     - If you do not have an existing network, set one up before attempting to connect the HP PSC.
     - **Choose a or b, and then turn the poster over.**
   - **a Wired network**
     - **Requirements:**
       - Router/hub/switch
       - ETHERNET (CAT-5) cable
     - **Go to step 10a to set up with a wired network.**
   - **b Wireless network (Infrastructure)**
     - **Requirements:**
       - Wireless access point/gateway/base station
       - ETHERNET (CAT-5) cable
     - **Go to step 10b to set up with a wireless network.**
   - **Wireless Information:**
     - **WPA.** If your wireless network uses WPA, configure this on the HP PSC before you install the software. For details see the Reference Guide, chapter 15, Wireless Network Setup, use the embedded web server.
   - **Compatibility with 802.11g.** This HP PSC includes an 802.11b radio that is compatible on 802.11g systems.

10a Wired network setup

Wired network setup allows your HP PSC to communicate to your computers through a router/hub/switch.

1. Choose Windows or Macintosh, and then follow the steps carefully.
2. Connect the ETHERNET cable to the back of the HP PSC.
3. STOP! Make sure the blue network light on the HP PSC is lit. This might take 60 seconds.
4. Connect the ETHERNET cable to the hub/router/switch.

NOTE: You can see the cable from the box or purchase a longer cable.

If you have any questions, see the Wired Network Setup chapter in the Reference Guide.

If you have any concerns, see the Setup Assistant.

If you require help, visit www.hp.com/support.

10b Wireless network setup (infrastructure)

Wireless network setup allows your HP PSC to communicate to your computers through a wireless access point or base station.

1. Choose Windows or Macintosh, and then follow the steps carefully.
2. Connect the ETHERNET cable to the back of the HP PSC.
3. STOP! Make sure the blue network light on the HP PSC is lit. This might take 60 seconds.
4. Connect the ETHERNET cable to the hub/router/switch.

NOTE: You can see the cable from the box or purchase a longer cable.

If you have any questions, see the Wireless Network Setup chapter in the Reference Guide.

If you have any concerns, see the Setup Assistant.
