

## Important Information About Your Sound Card Remote Control

The Creative Sound Blaster Audigy 2 ZS Platinum sound card comes with a remote control. You need to enable and configure this remote control before you can use it.

To enable and configure the remote control:

- 1** Click **Start** on the taskbar, choose **All Programs, Creative, Creative MediaSource**, and then click **Remote Control & OSD Settings**.
- 2** Select the options you want to enable; specifically, for the remote control, be sure there is a check in the check box for *Enable Creative MediaSource Remote Control*.
- 3** Click the **OK** button.
