Recovery, built-in
HP has preinstalled the System Recovery software on the hard drive in case you need to recover the original software that came with your PC.

- There are no CDs to lose — it’s on your hard drive.
- It’s faster than traditional CD Recovery methods.
- It’s easy. Just use Software Repair Wizard to begin.

If you would still like a set of Recovery CDs, you can use this tool to create your own for future use.

See your user documentation for complete instructions.
