Model Number (on the front of the camera) _____

Serial Number (10-digit number on the bottom of the camera) _____

Date the camera was purchased _____

Printed in China

1. Attach the Wrist Strap

English

▲ Attach the wrist strap to the wrist strap mount on the side of the camera as shown.

2. Install the Batteries

1. Open the Battery/Memory card door on the side of the camera by sliding the door toward the front of the camera.
2. Insert the batteries as indicated inside the door.
3. Close the Battery/Memory card door by pushing the door down and sliding the door toward the back of the camera until the door latches.

You can expect performance similar to the following from the different types of AA batteries that work in your camera:

Alkaline (Starter Batteries)	118 to 240 shots
Lithium	284 to 712 shots
NiMH (rechargeable)	164 to 443 shots

If you use NiMH (rechargeable) batteries, be sure that you fully charge them before using them in the camera.

3. Turn On the Camera

English

▲ To turn the camera on, slide the lens cover open until it clicks, uncovering the lens. The Power/Memory light on the back of the camera turns on solid green. The HP logo also displays on the Image Display as the camera powers up.

CAUTION: When sliding the lens cover, keep your fingers clear of the lens. Fingerprints on the lens can impair the quality of the picture.

4. Choose the Language

The first time you turn the camera on, you are prompted to choose a language.

1. Scroll to the language that you want by using the ▲▼ ◀▶ buttons on the **Controller** .
2. Press the  button to select the highlighted language.

5. Set the Date and Time

You are now prompted to set the date and time.

1. The first item highlighted is the date and time format. If you want to change the date and time format, use the ▲▼ buttons. If the date and time format is correct, press the ► button to move to the Date.
2. Adjust the value of the highlighted selection by using the ▲▼ buttons.
3. Press the ◀▶ buttons to move to the other selections.
4. Repeat Steps 2 and 3 until the date and time are set correctly.
5. Press the $\frac{\text{Menu}}{\text{OK}}$ button when you have entered the proper values for the date and time. A confirmation screen appears, asking if the correct date and time have been set. If the date and time are correct, press the $\frac{\text{Menu}}{\text{OK}}$ button to select **Yes**.

6. Install and Format a Memory Card (Optional)

Your camera contains internal memory that allows you to store images and video clips. However, you can use a memory card (purchased separately) instead to store images and video clips.

1. Turn off the camera and open the Battery/Memory card door on the side of the camera.
2. Insert the memory card in the small slot behind the batteries, with the notched side of the card going in first, as shown. Make sure the memory card snaps into place.
3. Close the Battery/Memory card door and turn on the camera.

To help prevent corrupted cards and images, you should format memory cards before you use them for the first time. To format the memory card:

1. Press the $\frac{\text{Menu}}{\text{OK}}$ button, then use the \blacktriangleright button to move to the **Playback Menu** .
2. Press the \blacktriangledown button to highlight **Delete**, and then press the $\frac{\text{Menu}}{\text{OK}}$ button to display the **Delete** sub-menu.
3. Use the \blacktriangledown button to highlight **Format Card**, and then press the $\frac{\text{Menu}}{\text{OK}}$ button to display the **Format Card** confirmation screen.
4. Press the \blacktriangledown button to highlight **Yes**, and then press the $\frac{\text{Menu}}{\text{OK}}$ button to format the card.

Formatting Card... appears in the Image Display while the camera is formatting the memory card. When the camera has completed the formatting, the Total Images Summary screen is displayed.

To remove the memory card from the camera, first turn the camera off. Then open the Battery/Memory card door, press down on the top edge of the memory card, and it will spring outward from the slot.

English

7. Take a Still Picture

1. Press the **Live View/Playback**  /  button until the **Live View**  icon appears in the upper left corner of the Image Display, then frame the subject for your picture in the Image Display.
2. Press the **Shutter** button all the way down to take the picture. The camera beeps after taking the picture. The image appears for several seconds on the Image Display.

TIP: Hold the camera with both hands when pressing the **Shutter** button to reduce camera shake and prevent blurry pictures.

8. Record a Video Clip

English

1. Press the **Live View/Playback**  button until the **Live View**  icon appears in the upper left corner of the Image Display, then frame the subject for your picture in the Image Display.
2. To start recording video, press and release the **Video**  button on the top of the camera.
3. To stop recording video, press and release the **Video**  button again; otherwise, the video will continue recording until the camera runs out of memory.

9. Review Images and Video Clips

You will use **Playback** to review images and video clips.

1. Press the **Live View/Playback** / button until the **Playback** icon appears in the upper left corner of the Image Display.
2. Use the buttons to scroll through your images and video clips.

Video clips play automatically after the first frame of the video clip displays for 2 seconds.

10. Install the Software

English

The HP Image Zone software allows you to transfer images from the camera, and then view, edit, print, or e-mail them.

If you have trouble installing or using the HP Image Zone software, see the HP Customer Support website for more information: www.hp.com/support.

Windows

To install the HP Image Zone software, your computer must have a minimum of 64MB of RAM, Windows 2000, XP, 98, 98 SE, or Me, and Internet Explorer 5.5 Service Pack 2 or higher. If your computer meets these requirements, the installation process installs the full version of HP Image Zone; if not, the process installs the HP Image Zone Express, which lacks some features contained in the full version.

1. Close all programs and temporarily disable any virus protection software running on your computer.
2. Insert the HP Image Zone software CD into the CD Drive of your computer and follow the on-screen instructions. If

the installation window does not appear, click **Start**, click **Run**, type **D:\Setup.exe**, where **D** is the letter of your CD drive, then click **OK**.

3. When the HP Image Zone software has finished installing, re-enable any virus protection software that you disabled in Step 1.

Macintosh

To install the HP Image Zone software successfully, your Macintosh computer must have built-in USB, 128 MB of physical RAM, Mac OS X v10.2 or later, and 250 MB of disk space.

1. Close all programs and temporarily disable any virus protection software running on your computer.
2. Insert the HP Image Zone software CD into the CD drive of your computer.
3. Double-click the CD icon on the computer desktop.
4. Double-click the installer icon, and then follow the on-screen instructions.
5. When the HP Image Zone software has finished installing, re-enable the virus protection software that you disabled in Step 1.

11. Transfer Images to a Computer

English

1. Turn off the camera, then connect the camera to the computer through the USB cable provided.
2. Turn on the camera.
3. Follow the on-screen instructions to have the software transfer the images from the camera to the computer.
4. Disconnect the camera from the computer.

Getting Assistance

View the User's Manual on CD

Your camera has many more valuable features that are covered in detail in the User's Manual. These features include in-camera red-eye reduction, 5 shooting modes, direct printing capability, on-camera Help, camera accessories, and much more. To view the User's Manual:

1. Insert the HP Image Zone software CD into the CD drive of your computer.
2. **On Windows:** Click **View User's Manual** on the Main page of the CD installation screen.
On Macintosh: Look in the **readme** file in the **docs** folder of the HP Image Zone software CD.
