#### If the installation fails...

Make sure printer is powered on.

Make sure cable connections are secure.

If this light is flashing, start at the beginning of this Setup Guide.

If the problem persists:

1. Remove the CD from the computer's CD-ROM drive, then disconnect the printer cable from the computer.
2. **Restart the computer.**
3. Temporarily disable any software firewall or close any anti-virus software. Re-start these programs after the printer is installed.
4. Insert the printer software CD in the computer's CD-ROM drive, then follow the onscreen instructions to install the printer software.
5. After the installation finishes, restart the computer.
