1 Remote control component functions

The infrared lens on the remote control links the remote control to the computer. The link requires a line-of-sight path between the infrared lens on the remote control and the infrared lens on the computer.

Things to remember:

- The remote control operates within Windows® and QuickPlay (select computer models only). Each button responds according to which application is active.

  NOTE For information on using QuickPlay, refer to the QuickPlay online Help.

- Some remote control buttons perform the same functions as computer buttons. For example, the power button on the remote control and the power button on the computer have the same functions and can be used interchangeably.
- Some remote control buttons perform the same functions as computer hotkeys. Refer to the computer user guide for information on supported hotkeys.
- Other remote control buttons provide functions that are not duplicated by computer buttons or preset key combinations.

2 Button quick reference

This section provides information on the button functions of the remote control.

Button	Function in Windows	Function in QuickPlay (select models only)
Power	• When the computer is off, press the button to start Windows. • When the computer is on, press the button to emulate the computer power button. 3 Inserting the battery

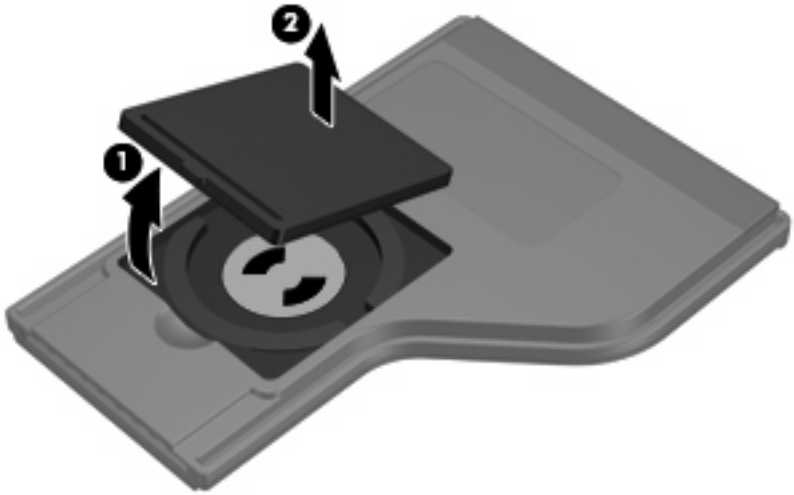
WARNING! There is risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.

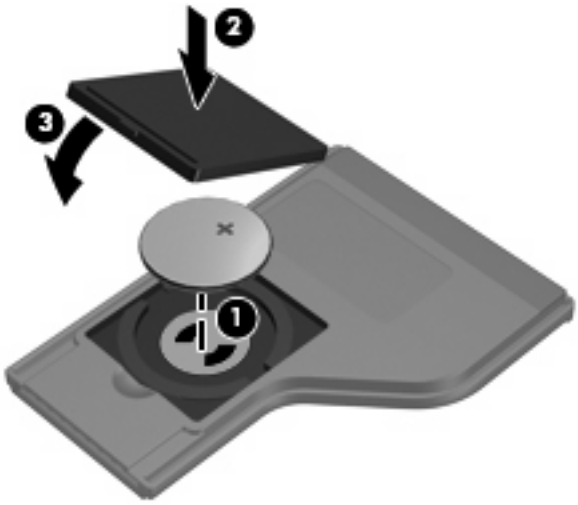
To insert the battery into the remote control, follow these instructions:

1. On the back of the remote control, lift the battery compartment cover **(1)** and remove it **(2)**.



2. With the positive side of the battery facing up, insert the battery into the compartment **(1)**.

3. Align the battery compartment cover **(2)** with the battery compartment and press down to close the cover **(3)**.



4 Troubleshooting the remote control

Refer to the following table for help in troubleshooting remote control problems.

Problem	Possible solution
My remote control is not working.	• Be sure that you have a clear line of sight from the remote control to the IR port on the computer or expansion product. • Be sure that you are within range of the IR port on the computer or expansion product. • Be sure that the battery is properly installed and has a charge. Replace the battery if necessary. • Be sure that you are using the remote control with a supported computer or expansion product.

5 Regulatory Notices

European Union Notices

This product complies with the following EU Directive:

- EMC Directive 89/336/EEC

Compliance with these directives implies conformity to applicable harmonized European standards (European Norms) which are listed on the EU Declaration of Conformity issued by Hewlett-Packard for this product or product family.

This compliance is indicated by the following conformity marking placed on the product:

- This CE marking is valid for non-telecommunications products and for EU harmonized telecommunications products, such as Bluetooth®.

- This CE marking is valid for EU non-harmonized telecommunications products.

*If applicable, a notified body number is used. Refer to the regulatory label provided on this product.

Hewlett-Packard GmbH, HQ-TRE, Herrenberger Strasse 140, 71034 Boeblingen, Germany

Battery disposal

WARNING! When a battery has reached the end of its useful life, do not dispose of the battery in general household waste. Follow the local laws and regulations in your area for computer battery disposal.
