從此處開始

1  USB

USB cable users: Do not connect the USB cable until Section A.

USB 纜線使用者：在進行到 A 部分之前請不要連接 USB 線。

802.11 Ethernet

Wireless (802.11) or wired (Ethernet) network users: you must follow the instructions in this setup guide to be successful adding the HP All-in-One to your network.

無線 (802.11) 或有線 (Ethernet) 網路使用者： 您必須依照本《安裝指南》中的指示進行操作，才能成功地將 HP All-in-One 新增至網路。

2

a. Remove all tape, and protective film from the lid and from the front and back of the device.
b. Lift the color graphics display and remove the protective film. You can adjust the angle of the display to a position suitable for viewing.

a. 請撕掉蓋板上以及裝置正面和背面的所有膠帶及保護膜。
b. 抬起彩色圖形顯示器並撕掉保護膜。您可以將顯示器的角度調節到最適合檢視的位置。

3

Verify the box contents. The contents of your box may differ.

* May be included

檢查包裝盒中的物品。物品可能有所不同。

* 可能包含
4

If the control panel faceplate is not already attached, position it over the buttons on the device. Press down firmly on all edges of the faceplate until it snaps into place. Make sure all buttons are visible and not blocked.

a. If the control panel faceplate is not already attached, position it over the buttons on the device.
b. Press down firmly on all edges of the faceplate until it snaps into place. Make sure all buttons are visible and not blocked.

5

a. Connect the power cord and adapter.
b. Press  to turn on the HP All-in-One.

NOTE: Pay attention to the helpful messages and animations in the display during the setup process.

6

Do one of the following:
• If a prompt appears asking you to select a language, touch the arrows to display your language in the list of up to 25 languages. Touch the desired language, and touch Yes to confirm. Select your country/region, and touch Yes to confirm.
• If a prompt appears asking to install ink cartridges, go to the next step in this guide.

執行以下其中一項操作：
• 如果系統提示您選取語言，請按方向鍵，以在清單中選取您的語言。按所需的語言，然後按「是」進行確認。
• 如果系統提示您安裝墨水匣，請轉至本指南中的下一步。
Open the access door.

打開存取擋門。

8

a. Squeeze the bottom of each latch to release it, and then lift the latch.
b. Lift all six latches.

a. 擠壓每個卡榫的底部將其打開，然後抬起卡榫。
b. 將六個卡榫全部抬起。

9

a. Match the color and pattern of the ink cartridge to the color and pattern above the latches.
b. Push the black ink cartridge in to the first slot on the left. Close the latch.
c. Repeat with each of the color ink cartridges.
d. Make sure each latch is secure.
   Note: Use only the ink cartridges that came with the printer. The ink in these cartridges is specially formulated to mix with the ink in the print head assembly at first-time setup.
e. Close the access door.

a. 墨水匣的色彩和模式都要符合卡榫上的色彩和模式。
b. 將黑色墨水匣推入左側的第一個插槽中。關閉卡榫。
c. 針對每種色彩的墨水匣重複上述操作。
d. 請確保每個卡榫均固定到位。
   注意：僅可使用印表機隨附的墨水匣。這些墨水匣中的墨水經特別配制，可在首次安裝時與列印頭組件中的墨水混合使用。
e. 關閉存取擋門。
After you load plain paper, you can also load photo paper into the photo tray. If you do not have photo paper, continue to the next step.

a. Lift the photo tray lid and pull out the photo tray.
b. Load photo paper with the glossy side down in the photo tray. Slide the paper guides against the photo paper.
c. Push the photo tray in, and lower the photo tray lid.
d. Pull out the tray extender and lift up the paper catch.

If you are prompted, touch OK after you have loaded paper in the tray, then wait a few minutes while the alignment page is printed. The alignment process ensures high print quality.

a. If you are prompted, touch OK after you have loaded paper in the tray, then wait a few minutes while the alignment page is printed. The alignment process ensures high print quality.
b. Touch OK after the alignment page is printed. When the page is printed, alignment is complete.

da. 拉出紙匣。
b. 將紙張寬度導板滑至左側。
c. 在主紙匣中插入普通白紙並調節紙張導板。
d. 推入主紙匣然後按「OK」。
Choose only ONE connection type (A – USB, B – 802.11/Wireless, or C – Ethernet/Wired), and follow the instructions in this Setup Guide.

A – USB

Use the instructions in Section A of this guide if you want to connect the HP All-in-One directly to one computer. (Do not connect the USB cable until step b). Equipment needed: USB cable.

B – 802.11

Use the instructions in Section B of this guide if you want a wireless (802.11b or 802.11g) connection between the HP All-in-One and your network. Equipment needed: wireless router.

C – Ethernet

Use the instructions in Section C of this guide if you want an Ethernet cable connection between the HP All-in-One and your network. Equipment needed: router and Ethernet cable.

Choose only ONE connection type (A – USB, B – 802.11/Wireless, or C – Ethernet/Wired). 僅可選擇一種連線類型 (A – USB、B – 802.11 無線或 C – Ethernet 有線)，然後依照本《安裝指南》中的指示進行操作。
Windows:

a. Turn on your computer, login if necessary, and then wait for the desktop to appear. Insert the green CD and follow the onscreen instructions. **IMPORTANT:** If the startup screen does not appear, double-click My Computer, double-click the CD-ROM icon with the HP logo, and then double-click setup.exe.

Mac:

**IMPORTANT:** Purchase a USB cable separately if it is not included.
a. Connect the USB cable to the port on the back of the HP All-in-One, and then to any USB port on the computer.

### IMPORTANT: 如果未随附 USB 線，請單獨購買。

b. 將 USB 線一端連接到 HP All-in-One 後方的連接埠，然後將另一端連接到電腦上的任何一個 USB 儲存。
c. 依照螢幕上的指示完成軟體安裝。
d. 轉至第 14 頁即可瀏覽您的 HP All-in-One。

### 重要事項：如果未隨附 USB 線，請單獨購買。

b. 出現 USB 提示時，將 USB 線一端連接到 HP All-in-One 後方的連接埠，然後將另一端連接到電腦上的任何一個 USB 儲存。
c. 依照螢幕上的指示完成軟體安裝。
d. 轉至第 14 頁即可瀏覽您的 HP All-in-One。
USB Troubleshooting

Problem: (Windows) The Microsoft Add Hardware screen appears.
Action: Cancel all screens. Unplug the USB cable, and then insert the green HP All-in-One CD. Refer to Section A.

Problem: (Windows only) You did not see the screen prompting you to connect the USB cable.
Action: Cancel all screens. Remove, and then re-insert the green HP All-in-One CD. Refer to Section A.

Problem: (Windows only) The Device Setup Has Failed To Complete screen appears.
Action: Unplug the device and plug it in again. Check all connections. Make sure the USB cable is plugged into the computer. Do not plug the USB cable into a keyboard or a non-powered USB hub. Refer to Section A.
a. Locate and write down your wireless router settings:
   Network Name (also called SSID): _________________________________________
   WEP key/ WPA Passphrase (if needed): _________________________________

   **IMPORTANT:** You must have this information available to continue with your wireless setup. HP provides a web-based tool called the Wireless Network Assistant [URL: www.hp.com/go/networksetup (English only)] that can help retrieve this information for some systems. If the Wireless Network Assistant is unable to retrieve your network information, you must consult the documentation for your wireless router, the router manufacturer, or the person who originally set up your wireless network.

b. Using the touch screen of your HP All-in-One, touch Setup in the upper-right corner.
c. In the Setup menu, touch Network. The Network Menu appears.
d. In the Network menu, touch Wireless Setup Wizard.
   In a few moments, a list of detected networks appears on the display. The network with the strongest signal appears first.

b. 使用 HP All-in-One 的觸摸屏，按右上角的「安裝」。
c. 在「安裝」功能表中，按「網路」。「網路」功能表隨即顯示。
d. 在「網路」功能表中，按「無線設定精靈」。
   几秒後，所偵測到網路的清單即會在顯示器上顯示。信號最強的網路會最先顯示。
e. Do one of the following:
   • Touch the name of the network that you wrote down earlier.
   • If the network name that you wrote down does not appear in the list, you can enter it manually. Touch Enter New Network Name (SSID) then use the visual keyboard to enter the network name. Use the Visual Keyboard Tips that follow if necessary.

f. If your network uses security, a prompt appears for the WEP key or WPA passphrase. Both are case sensitive. Use the visual keyboard to enter the WEP key or WPA passphrase, as requested.  
   **Note:** If your router provides 4 WEP keys, make sure you use the first one.

g. Follow the prompts on the display to complete the network setup.

Visual Keyboard tips:
   • To Select: touch the desired letter or character
   • For mistakes: Touch Clear
   • For lowercase: Touch abc
   • For numbers: Touch 123
   • For symbols: Touch .@!
   • When you are finished: Touch Done

---

h. Go to Section D of this Setup Guide to install your software.

h. 转至本《安装指南》的 D 部分安装您的軟體。
Locate the Ethernet cable.  
Remove the yellow plug from the back of the device.  
Connect one end of the Ethernet cable to the Ethernet port on the back of the device.  
Connect the other end of the Ethernet cable to the router (not in the Internet port).  
Go to Section D of this Setup Guide to install your software.

**Important:** Your computer and the HP All-in-One must be on the same active, working network. If you are using a DSL or cable modem, make sure you do not connect the Ethernet cable from the HP All-in-One to the cable modem. Connect it to the router only.

---

**C - Ethernet**

1. Locate the Ethernet cable.  
2. Remove the yellow plug from the back of the device.  
3. Connect one end of the Ethernet cable to the Ethernet port on the back of the device.  
4. Connect the other end of the Ethernet cable to the router (not in the Internet port).  
5. Go to Section D of this Setup Guide to install your software.

**Important:** Your computer and the HP All-in-One must be on the same active, working network. If you are using a DSL or cable modem, make sure you do not connect the Ethernet cable from the HP All-in-One to the cable modem. Connect it to the router only.

---

**中文**

a. 找到 Ethernet 纜線。  
b. 拔出裝置背面的黃色插頭。  
c. 將 Ethernet 纜線的一端連接到裝置背面的 Ethernet 連接埠。  
d. 將 Ethernet 纜線的另一端連接到路由器 (不要連接到 Internet 連接埠)。  
e. 轉至本《安裝指南》的 D 部分安裝您的軟體。

**重要事項：**您的電腦和 HP All-in-One 必須位於同一個使用中的網路內。  
如果您使用 DSL 或纜線數據機，請確保您未將從 HP All-in-One 延伸出的 Ethernet 纜線連接到纜線數據機，只可將其連接到路由器。
Turn on your computer, login if necessary, and then wait for the desktop to appear.

Insert the green CD and follow the onscreen instructions to install the software.

**IMPORTANT:** If the startup screen does not appear, double-click My Computer, double-click the CD-ROM icon with the HP logo, and then double-click setup.exe.

On the Connection Type screen, make sure to select through the network.

Your firewall software may provide prompts warning you that HP software is attempting to access your network. You should respond so that access is “always” allowed. Then continue with the HP software installation.

**Note:** Anti-virus and anti-spyware applications may block software installation and may need to be disabled. Remember to turn them back on again following installation.

---

**a.** 打開電腦並登入（如有必要），接著等候桌面出現。

**b.** 插入綠色 CD，並依照螢幕上的指示安裝軟體。

**重要事項：** 如果啓動畫面沒有出現，請連按兩下「我的電腦」，再連按兩下有 HP 標誌的「CD-ROM」圖示，然後連按兩下「setup.exe」。

**c.** 在「連線類型」畫面上，請確保選取「透過網路」。

**d.** 您的防火牆軟體可能會顯示提示，警告您 HP 軟體正嘗試存取您的網路。您應就此做出回應，以「始終」允許該存取。然後，繼續執行 HP 軟體安裝。

**注意：** 防毒和防間諜應用程式可能會封鎖軟體安裝，因此可能需要將其停用。切記要在安裝完成之後重新啓動這些應用程式。
If you have additional computers on your network, install the HP All-in-One software on each computer. Follow the onscreen instructions. Make sure that you choose the connection types between the network and your HP All-in-One (not between your computer and the network).

Network Troubleshooting

Problem: While you install the HP All-in-One software, you see the error message Printer Not Found.

Action:
• The HP All-in-One may not be connected to your network. For a wireless connection, make sure you have run the Wireless Setup Wizard from the control panel before continuing with the software installation. For a wired Ethernet connection, check all cable connections between the HP All-in-One, the router, and your PC.
• Try temporarily disabling any firewall, anti-spyware, or anti-virus software you may be currently running on your PC.

問題：安裝 HP All-in-One 軟體時，出現錯誤訊息「找不到印表機」。
動作：
• HP All-in-One 可能並未連接到您的網路。如果是無線連線，請確定在繼續安裝軟體之前，已從控制台執行了「無線設定精靈」。如果是有線 Ethernet 連線，請檢查 HP All-in-One、路由器和您的 PC 之間的所有線纜連接狀況。
• 嘗試暫時禁用所有當前可能在您 PC 上執行的防火牆、防間諜或防毒軟體。
Problem: After you run the Wireless Setup Wizard from the HP All-in-One control panel, the HP All-in-One cannot connect to the network.

Action:
- You can print a diagnostic report that may help identify the problem. Run the Wireless Network Test from the HP All-in-One control panel Network Menu.
- If you entered your network name (SSID) manually using the Wireless setup Wizard, you may have not typed the name correctly. Run the Wireless Setup Wizard again, and make sure you type the network name correctly.
- If you are using the default network name (SSID) provided by your wireless router manufacturer, your HP All-in-One may be trying to connect to another wireless router in your neighborhood that uses the same network name. Make sure your network name is unique.
- The signal between your HP All-in-One and your wireless router may be weak. Try moving the HP All-in-One closer to your wireless router and avoid obstructions such as walls or large metal cabinets.
- There may be inference from other devices preventing the HP All-in-One from connecting. Any wireless device that uses 2.4GHZ can cause interference (including microwaves). Make sure these devices are not in use during the HP All-in-One installation.
- Your wireless router may need to be reset. Turn off your wireless router for 30 seconds and then turn it back on. Then run the Wireless Setup Wizard on your HP All-in-One.

問題：從 HP All-in-One 控制台執行「無線設定精靈」之後，HP All-in-One 無法連接到網路。

動作：
- 您可以列印出診斷報告，這有助於識別問題所在。從 HP All-in-One 控制台的「網路」功能表執行「無線路網測試」。
- 如果您使用「無線設定精靈」手動輸入網路名稱 (SSID)，則可能是所鍵入的名稱不正確。請再次執行「無線設定精靈」，並確保所鍵入的網路名稱正確。
- 如果所使用的網路名稱是由無線路由器製造商提供的預設網路名稱 (SSID)，則可能是您的 HP All-in-One 嘗試連接到採用相同網路名稱之相鄰的其他無線路由器。請確保網路名稱是唯一的。
- 您的 HP All-in-One 和無線路由器之間的信號可能很微弱。請嘗試將 HP All-in-One 移到更靠近無線路由器的位置，同時避免被牆或較大的金屬櫃等阻隔。
- 其他裝置也可能會造成干擾，妨礙 HP All-in-One 的連線。任何採用 2.4GHZ 的無線裝置都可能會造成干擾 (包括微波)。請確保在安裝 HP All-in-One 時未使用這些裝置。
- 您的無線路由器可能需要進行重設。請關閉您的無線路由器，30 秒後再將其開啓。然後在 HP All-in-One 上執行「無線設定精靈」。
Problem: You see the error message Invalid WEP key or Invalid WPA passphrase when you run the Wireless Setup Wizard.

Action:
• You may have typed the WEP key or WPA passphrase incorrectly. These security keys are case sensitive and must be typed exactly. Make sure you have not accidentally inserted blank spaces at the beginning or end.
• If you are using the default network name (SSID) provided by your wireless router manufacturer, your HP All-in-One may be trying to connect to another wireless router in your neighborhood that uses the same network name. Make sure your network name is unique.

Explore the features

Now that your HP Photosmart software program is installed on your computer, you can try out one of the features on the HP All-in-One.

Print a 10 x 15 cm photo

If you have not already done so, load photo paper in the photo tray. (See step 11.)

Insert the memory card from your camera into the appropriate memory card slot.

列印 10 x 15 公分相片

a. 如果您尚未執行此操作，請在相片匣中裝入相紙。（請參閱步驟 11。）
b. 將相機中的記憶卡插入相應的記憶卡插槽中。
c. When the Photosmart Express menu appears in the color graphics display, touch View.
d. Touch or to scroll through the thumbnails of your photos.
e. When the thumbnail of the photo you want to view appears, touch it.
f. When the photo appears on the display, touch the image again. The Print Preview screen appears.
g. Touch Print Preview.
h. To print the photo, touch Print.

c. 當彩色圖形顯示器顯示「Photosmart Express」功能表時，按「檢視」。
d. 按 或 即可捲動相片縮圖。
e. 找到要檢視相片的縮圖時，請點按它。
f. 當相片出現在顯示器上時，再次點按該影像。「列印預覽」畫面隨即顯示。
g. 按「列印預覽」。
h. 若要列印相片，請按「列印」。
Printable School Papers: Did you know you can print school papers from your HP All-in-One? Print notebook paper, graph paper, task checklists, or even music paper from the control panel. Using the touch screen of your HP All-in-One, touch (Setup) in the upper-right corner to access Printable School Papers.

For more information, see the HP Photosmart C8100 All-in-One series Basics Guide, as well as the onscreen help, which provides detailed instructions on using all features of the HP All-in-One.
