

Important! Read This First!

IMPORTANT: Your system BIOS is unique. Following the updating instructions within third-party documentation will cause your system to become unbootable. Check the HP Support site for updates:

www.hp.com/blackbird/support

Non-HP documentation may be included with your computer. This third-party documentation contains information about features and instructions not covered by HP Support.

Changing your system configuration can void your warranty. Refer to your product *Limited Warranty and Support Guide* for warranty details.
