

## HP 7" df750 Series Digital Picture Frame

HP df750 Digital Picture Frame gives you an innovative and easy way to view digital pictures without a computer!

HP df750 offers a high resolution picture display and supports commonly used memory cards. You can view a single picture or a complete slideshow, all without a computer.

You can also play music as it supports audio files such as MP3. Its built-in memory card and USB ports give you greater flexibility for picture sharing. The df750 series products comes with a sleek remote control that lets you enjoy slideshows with a touch of a button.
