Load paper and calibrate the printer	Remove the output tray straight out, by pulling it firmly . The output tray is the removable 'lid' on top of the main tray. Note: Make sure the specialty media tray is closed.	Load all of the included HP Advanced Photo paper into the main tray in portrait orientation, glossy side down . Align the paper against the right side of the tray.	Adjust the paper guides. Check that the paper is ly Slide the output tray back into place.	ying flat. Start calibration	Press the Resume button []] to start printer calibration. Calibration takes 30–40 minutes. Use this time to install the software (step 17). When the Printhead light [F] goes off, calibration is complete.
Charger du papier et étalonner l'imprimante	Retirez le bac de sortie en le tirant droit et fermement . Le bac de sortie est le « couvercle » amovible au-dessus du bac principal. Remarque : assurez-vous que le bac pour supports spéciaux est fermé.	Chargez tout le papier photo avancé HP dans le bac principal orienté en portrait, face brillante vers le bas . Placez le papier contre le côté droit du bac.	Réglez les guides de papier. Vérifiez que le papie Remettez le bac de sortie en place.	er est posé à plat. Démarrer l'étalonnage	Appuyez sur le bouton Reprendre [♪] pour démarrer l'étalonnage. L'étalonnage dure de 30 à 40 minutes. Pendant ce temps, installez le logiciel (étape 17). Quand le voyant de tête d'impression [√] s'éteint, l'étalonnage est terminé.
Colocar papel e calibrar a impressora	Remova a bandeja de saída completamente, puxando-a firmemente . A bandeja de saída é a 'tampa' removível na parte superior da bandeja principal. Observação: Verifique se a bandeja de mídia especial está fechada.	Coloque todo o papel fotográfico HP Advanced incluído na bandeja principal, na orientação retrato, com o lado brilhante voltado para baixo . Alinhe o papel junto ao lado direito da bandeja.	Ajuste as guias de papel. Verifique se o papel esté Deslize a bandeja de saída de volta para o lugar.	á esticado. Iniciar calibração	Pressione o botão Continuar []] para iniciar a calibração da impressora. A calibração leva 30-40 minutos. Use esse tempo para instalar o software (etapa 17). Quando a luz da cabeça de impressão [] apagar, a calibração estará concluída.
