

HP 8" df820 series Digital Picture Frame

HP df820 series Digital Picture Frame with 512MB internal memory gives you an easy way to enjoy and share your favorite pictures with family and friends, all without a computer!

It's so easy to use. Just take your pictures, remove the memory card from the digital camera, insert it into the picture frame, and enjoy the picture slideshow. It's that simple!

HP df820 offers 800x600 high-resolution picture display and supports most commonly used memory cards. Its built-in USB port also supports USB thumb drives adding more flexibility for picture sharing.

The df820 comes with four sets of interchangeable double mats. The mix and match double mats add an elegant touch to the black solid wood frame to match a range of décor.

Creative and Fun

- Intuitive user interface makes viewing easy
- Watch a video or slideshow of your pictures while playing your favorite music
- Interchangeable double mats to enhance your digital pictures and match your home décor
- Generous built-in memory (512MB) stores up to one thousand pictures
- Enjoy slideshow of a single picture or multiple pictures with clock and calendar options in quadrant view
- Digitally pre-designed mats accentuate your pictures
- PictBridge for easy printing of your favorite pictures directly to a PictBridge enabled printer
