Step 1 Charging the headphones and Bluetooth adapter (select models only)

Before you can use the headphones, you must charge both the headphones and the Bluetooth adapter. The headphones can be charged using the USB port on your computer or the AC adapter (provided with select models only).

To charge the headphones, follow these steps:

1. Be sure that the Bluetooth switch and the noise cancellation switch are in the off position, with no red indicator visible at the open end of the switch.
2. Slide the Bluetooth switch located on the left ear cup to turn on the Bluetooth adapter (select models only).
3. Plug the AC adapter into an AC outlet.
4. Plug the AC adapter into the AC adapter jack on the left ear cup.

Step 2 Using the headphones with the audio line-in cable

To use the headphones with the audio line-in cable, follow these steps:

1. Unplug the AC adapter from the AC adapter jack on your computer.
2. Slide the power switch to turn on the headphones.
3. Plug the other Mini-USB connector into the Mini-USB port on the Bluetooth adapter (select models only).
4. Plug the audio line-in cable connectors by grasping each connector and then pulling gently. Do not pull on the cable to remove it from the device.
5. If you are using the AC adapter, plug the AC adapter into an AC outlet.

You are now ready to use the headphones. Open your media player software and begin listening to music, or watching a video.

Step 3 Using the headphones with the enclosed Bluetooth adapter (provided with select models only)

Before using the headphones, be sure that the headphones and Bluetooth adapter are turned on.

To pair the headphones using Windows Vista®, follow these steps:

1. Slide the Bluetooth switch located on the left ear cup to turn on the Bluetooth adapter (select models only).
2. Slide the Pairing switch on the right ear cup of the headphones to make the headphones discoverable. After three steps:
3. The headphones are now ready for use.
