

Cleaning minilab exterior

Clean the minilab exterior daily at closing.

⚠ Caution: Avoid excess moisture. Allow all surfaces to dry completely before resuming use.

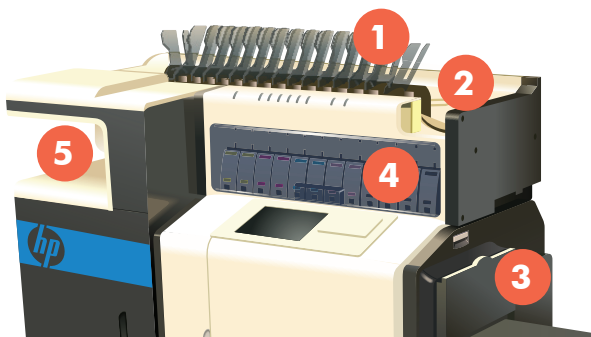

1 Prepare cleaning material.

HP recommends using HP Equipment Cleaning Wipes, but you can also use an HP-approved lint-free wipe dampened with deionized or distilled water.

2 Wipe touchscreen gently.

3 Clean outside of print engine.

1. Wipe sorter paddles.
2. Wipe overflow bin.
3. Wipe Tray 1.
4. Wipe between ink supply door and touchscreen to remove ink droplets.
5. Wipe mixed-job bin.
