

Recycling guidelines

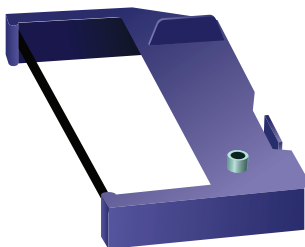

HP makes it easy to recycle.

HP's Planet Partners program offers free boxes and postage for recycling. Bulk boxes are the most environmentally friendly way to recycle. If you don't have space for one, look for the free mailing label inside most new supply boxes. Items not on this list can be disposed of in accordance with local policies. For more recycling information visit www.hp.com/go/recycle.

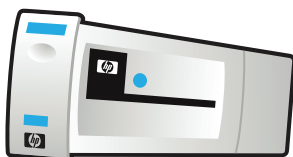

Backside printer ribbon cartridge

Dispose of used cartridge in accordance with local regulations. Visit www.hp.com/go/recycle or contact Reseller or HP Account Manager for more information.

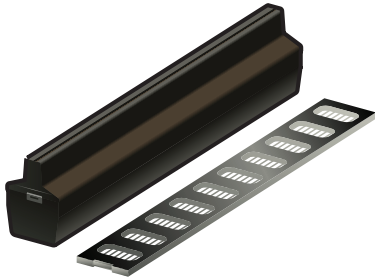

Ink cartridges

Put ink cartridges into bulk recycling box. Seal box, attach provided shipping label, and ship.
If you do not have a bulk recycling box:
U.S. Only: Place empty cartridge into box from new cartridge, attach label, and ship.
International: Visit www.hp.com/go/recycle or contact Reseller or HP Account Manager for more information.

Recycling guidelines

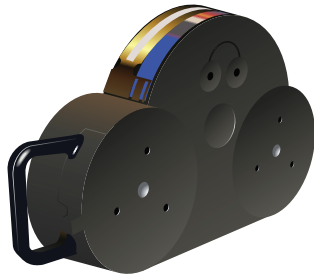

Ink droplet collector

If new IDC came with shipping label, put used IDC, cover, and protective gloves into self-sealing bag. Seal bag and put into package from replacement IDC. Seal box, attach shipping label, and ship.

Otherwise, dispose of used IDC in accordance with local regulations. Visit www.hp.com/go/recycle or contact Reseller or HP Account Manager for more information.

Pen wipe cartridge

U.S. only: Put used pen wipe cartridge into package from replacement cartridge. Seal box, attach provided shipping label, and ship.

International: Dispose of used cartridge in accordance with local regulations. Visit www.hp.com/go/recycle or contact Reseller or HP Account Manager for more information.

Photo paper

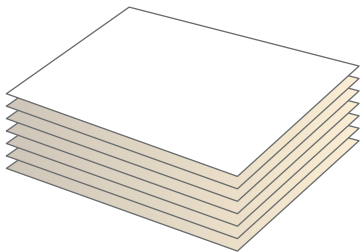

Photo paper, because of its high-durability coating, cannot be recycled. Dispose of photo paper in accordance with local regulations.

Visit www.hp.com/go/recycle or contact Reseller or HP Account Manager for more information.
