**Date Written/Updated:** September 1, 2009

**Document Summary**

- ✓ Updates to the currently published User Guide

There have been some user guide updates since the product was first introduced. This document will detail the changes.

**No “N” bundle available**

The user guide currently indicates that we have a base model, D, N, DN, and X bundles. We currently do not offer a “N” bundle. References: Page 3, 25, 181, 204, 223.

**No 1GB DIMM Accessory –**

Remove reference to the 1GB DIMM Accessory, part number CE285A. References: Page 201

**Removal of P3011 –**

Remove references to the P3011. References: Page 13, 25, 28, 38, 181.

**Correct Face-Up Output Bin Spec –**

This is a 100-sheet rear output bin instead of 50-sheet face-up output bin. References: Page 3

**Correct Max Memory –**

Base should be expandable to 608 MB (instead of 1GB), and other bundles should be expandable to 640 MB (instead of 1GB). References: Pages 3, 4

**Incorrect Walk-up USB supported file types –**

We currently state that we support .pcl file types, and it should read .prn file types. We do not support .pcl file types. Pages 192
