

t500 Digital Camcorder

Capture high definition video in the palm of your hand

The t500 is a digital camcorder that records videos in Full HD and takes pictures in high resolution. It features 23X optical zoom with image stabilization, allowing you to capture amazing images of distant subjects without sacrificing any detail. The compact design makes it easy to carry and readily available for spontaneous recording in high definition. With the touch screen LCD display, you can conveniently navigate through all the functions, letting you easily record videos on the go.

Full HD 1080p video recording

The t500 digital camcorder allows you to record videos up to 1920 x 1080 high resolution, enabling you to capture videos of your life's moments in more detail and in vivid colors.

23X optical zoom

The 23X optical zoom lets you magnify and capture sharp images when recording videos from a distance. Be confident that you can capture the moment, whether it is stunning details of wildlife or your child's first dance recital.

Easy sharing

The t500 offers a convenient and easy way to share videos with the HDMI Interface. It lets you quickly transmit digital videos to any HD TV. Just record, connect the camcorder to your TV via the HDMI cable, and enjoy the videos instantly on your High Definition TV. It's that simple!

Advanced recording features

Optimize your videos using the advanced recording features of the t500. The time lapse function is great for making subtle motions much more pronounced. It captures at a slower rate so that movements appear much faster when replayed. Alternatively, use the t500 to replay fast movements in slow motion so you can clearly see your favorite moments. The motion detection feature is perfect for capturing fun moments of your pet or toddler.
