

# SimpleSave™ Portable Hard Drives

- Automatic, hands-free backup
- No software to install or learn, no files to select
- Frequent backup update of changed files
- Back up and restore multiple computers
- Automatically supports most file types
- Plug-and-play extra storage

THE COMPUTER IS PERSONAL AGAIN.

### Yes, it's that easy! Portable storage with hands-free backup.

HP's SimpleSave portable hard drive fits stylishly in your pocket or purse and is so easy to use you won't believe it. The included backup software runs right off the drive. The minute you plug it in to a USB port, it begins backing up your data. There's no need to install and learn software; it's practically hands-free. Users will love this backup solution because the software finds all your valuable data, no matter where it is on your computer and, after the first backup, it frequently checks for file changes so your backup is always up to date.

### Hands-free backup

- Automatic, hands-free backup – Begins backing up the minute you plug it in.
- Backup so simple, anyone can use it – No software to install, no files to select.
- Finds all your important files – Even the most disorganized computer user will love this backup solution because the software finds all your valuable data, no matter where it is on your computer. It supports a wide variety of file types automatically and you can enter additional file types if you need to.
- Keeps your backup current – Checks for file changes and backs them up every time your computer is idle.
- Easily back up multiple computers – Back up and restore all the computers in your home.

### Plug-and-play extra storage

Connect it to your USB port and it's ready to use.

### USB powered

No need to carry around a bulky power adapter, the drive is powered through the USB cable. (USB cable included)
