

t200 Digital Camcorder

Create your own movie with the t200 digital camcorder. Use the t200 time lapse feature to record the subtle motion of the sunset and replay it at a much faster rate. The t200 digital camcorder's slow motion recording feature is perfect for slowing down actions so you can clearly see your favorite moments. The t200 is a great compact camcorder for those who want a simple, easy-to-use camcorder.

Full HD 1080p video recording

The t200 digital camcorder allows you to record videos up to 1920 x 1080 high resolution, enabling you to capture videos of your life's moments in more detail and in vivid colors.

Easy sharing

The t200 offers convenient and easy ways to share videos. With the HDMI cable, you can transmit digital videos to any HD TV. You can also upload directly to YouTube with its built-in program to share with family and friends.

Advanced recording features

Optimize your videos using the advanced recording features of the t200. The time lapse function is great for making subtle motions much more pronounced. It captures at a slower rate so that movements appear much faster when replayed. Use the slow motion recording to replay fast movements in slow motion so you can clearly see your favorite moments. The motion detection feature is perfect for capturing fun moments of your pet or toddler. Image stabilization is also available to improve camera vibration often seen in handheld video recordings.

Still image capture

Take color snapshots anytime with the t200. It features still image resolution of up to 16MP with interpolation allowing you take amazingly clear shots. When taking pictures of family and friends, the face tracking feature will detect and focus on the faces creating clear beautiful portraits.
