

df760 7-inch Digital Picture Frame

Make sharing your memories fun

The df760, a sleek digital picture frame, brings fun to sharing photos and videos with family and friends. Just select photos and music and turn them into an animated slideshow with the Photo Show feature. Use the Vivid Photos feature to enhance the edges, color, brightness, and contrast of your pictures. You can view home videos captured by your digital camera or camcorder. For added convenience, check the time and date anytime with the built-in alarm clock and calendar display.

Great picture quality

Featuring an 800 x 600 high resolution LCD screen, the df760 displays photos in amazing colors. Turn on the Vivid Photos feature to enhance the edges, color, brightness, and contrast of the pictures.

Multimedia entertainment

The df760 brings fun to sharing photos and videos with friends and family. With its Photo Show feature, the df760 can turn the photos and music you select into an animated slideshow. You can also share your home videos recorded with your digital camera or camcorder.

Clock and calendar display

The df760 can display a monthly calendar and digital clock. You can choose from three different modes; a monthly calendar and digital clock with a photo slideshow, a special four-quadrant display with two slideshow windows, monthly calendar and a clock, or just a date & time displayed with a photo slideshow.

Predefined digital albums

The df760 digital picture frame comes equipped with three predefined digital albums. You can organize, sort, and save your desired photos in different albums making it easy for you to select which set of pictures you'd like to view or share.

Programmable power on/off

The df760 digital picture frame provides the convenience of programming it to turn on and off at the times you choose. Set the digital picture frame to display photos when you're at home and turn it off when you're away or asleep. With this useful function, you do not have to worry about excessive electricity consumption.
