

Preparing the DaqPRO Logger

The DaqPRO logger is used to perform the ink sealing test on the FB10000 Industrial Press. This document describes the preparations that must be made before the logger is delivered to HP Scitex.

1. Open the case of the DaqPRO logger.

2. Remove the power adapters provided with the logger and dispose of them.

3. Attach the NiMH battery safety sticker (P/N CX196-01060) to the outside of the case.
