4 Leap Motion allows you to control custom apps with your hands and fingers in the air. An interactive tutorial is provided during setup. The tutorial shows you how to position your hands and interact with Leap Motion. You can complete this tutorial at any time.

Using Airspace, you can launch your Leap Motion apps and discover new applications, including activities and games, designed specifically for the Leap Motion technology.

To access Airspace after setup, select the **Leap Motion Airspace** icon  on the Windows desktop.

2 Go to <http://www.leapmotion.com/hp/setup> to download and install the Leap Motion software. Follow the setup instructions to accept the End-User License Agreement (EULA) and create an account for Airspace, the Leap Motion app store.

NOTE: Internet connection is required to download the Leap Motion software and access the Airspace app store.

3 Press **fn+spacebar** **1** to turn the Leap Motion sensor on.

Leap Motion is turned off when the computer is in the Sleep state, in Hibernation, or turned off. To turn Leap Motion off, press **fn+spacebar**.

For optimum sensor performance, use a slightly damp microfiber cloth to clean the sensor area periodically.

For more information about Leap Motion, go to <http://www.leapmotion.com>.

The Leap Motion sensor **2** is located at the top of the keyboard. The Leap Motion light **3** is white when Leap Motion is on.

NOTE: Actual keyboard markings may vary slightly.
