

Car Camcorder f500

The HP Car Camcorder f500 is a great companion for a chaotic world of driving. This compact full HD 1080p camcorder with an ultra-wide angle lens and large aperture allows you to record your trip in amazing detail even in low light. The built-in G-Force sensor can detect a collision and initiate Emergency Video Recording which makes it easy to retrieve for replay. The included car power adapter has a long cord for easy installation and assures the camera is always ready. When you start the car, the f500 automatically starts recording video with no need to push any button.

Built-in, 3-Axis G-Force and motion sensor

No one expects to get into a driving accident, but when it happens, the built-in G-force sensor can detect these events and trigger Emergency Video Recording mode. These emergency recordings are date and time-stamped as well as protected from loop recording overwrites.

Loop Recording

The f500 records video clips of 3 or 5 minute lengths (customer selectable) on to the installed microSDHC memory card. The standard loop recording technology prevents storage overload by erasing the oldest previously recorded file and replacing it with the new one.

Small Size with a Big View

The small size of the f500 makes it perfect to install without obstructing your view. The small size f500 is equipped with a 140 degree ultra- wide angle lens to capture all the critical elements with little edge to edge distortion. If you like to drive the city at night, let the f500 will amaze you with the crystal clear resolution while capturing the vivid colors of the surrounding lights.

Easy to Install and Use

Use the enclosed bracket to install to many windshields in seconds. The car power adapter has a generous 3.5 meter (11.4 feet) cord that accommodates easy routing in almost any vehicle. Once installed, the f500 automatically begins recording when the vehicle starts and powers down when the vehicle is turned off. The camcorder also offers many easy to use options such as motion detection.

Package Contents

- F500 camcorder
- Car power adapter
- Camera mounting bracket
- Quick start guide
- Warranty document.
