

Action Cam ac300w

The ac300w with full HD at 60 fps is the perfect camera to capture your adventures! This camera is equipped for action with surface, helmet, bike, and Velcro mounts in the box. It's been drop tested on concrete at over 3 meters, so it's rugged and ready companion for the daredevil in you. The clam shell case is waterproof for all four seasons. The real watch remote control shows the wearer what the camera sees in real time. The HP ac300w knows Adventurers don't get do overs, so trust it to record your child's 1st bike, ski, snowboard or surf board moments and watch the smooth play back in full HD at 60 fps together.

Watch Remote Control

The HP ac300w has a watch remote control that confirms the mount view. The watch remote starts/stops the video recording or photo capture and it's a wrist or a stop watch. It's versatile!

View Live

Use the HP XCam free app for Apple & Android smart phones or tablets to stream live view. Available on Google Play or iTunes. With View Live you control the start/stop of video, image capture, and play back content.

Excellent Battery Life

The battery life is up to 1hr & 55min of continuous 1080p @ 30fps video recording. Best of all the battery is rechargeable via the camcorder USB port. It's ready!

Water Proof Case

Take the HP ac300w in the ocean or on a white water raft trip. The rugged design and the water proof case can go down to 60 meters for a limited time. Water doesn't stop this action cam.

Up to 140° Wide Angle Lens

The 140° wide-angle lens allows you to capture more of your group, and more of the action. The details of the shot are preserved because distortion at the edges is minimal.

6 Capture Modes

- Video Mode in Full HD 1080P @60fps
- Photo mode-take sharp clear 16MP pictures
- Wi-Fi Mode-stream video to your smart phone using a Wi-Fi connection
- Burst Mode is where you take 7 photos with one press of a shutter button
- Time Lapse mode is the continuous capture of photos at a user determined interval. Shooting stops when shutter button is pressed again
- Self-timer mode-takes a photo after a short delay either 2 or 10 seconds

The rugged versatile ac300w is prepared for action underwater, in rain or shine with full HD 1080p and wireless streaming to many smart phones and tablets.
