

Interactive BIOS simulator

HP 14-dk0000 Laptop PC

Welcome to the interactive BIOS simulator for the
HP 14-dk0000 Laptop PC

Here's how to use it...

[BIOS Utility Menus](#): (Click the link to navigate to the individual menus)

On this page you will find thumbnail images of each of the product's BIOS utility menus. To view a specific menu in greater detail, simply click that thumbnail. Just as in the live BIOS, on each menu, you can select the tab of each of the other utility menus to navigate directly to that menu.

Menu options:

While the menu options cannot be toggled, many of them offer item specific information about that option. To view this information, use the cursor to rollover the option and the information will present in a pane on the right of the BIOS screen.

That's it!

On every page there is a link that brings you back to either this [Welcome](#) page or the [BIOS Utility Menus](#) page enabling you to navigate to whatever BIOS option you wish to review.

System Configuration Menu

Back to BIOS Utility Menus

The screenshot shows the 'System Configuration' menu in the InsydeH20 Setup Utility. The title bar at the top reads 'InsydeH20 Setup Utility' and 'Rev.5.0'. Below the title bar is a navigation bar with four tabs: 'Main', 'Security', 'System Configuration' (which is currently selected), and 'Exit'. The main area of the screen is divided into two columns. The left column lists several configuration items with their current values: 'Language' is set to '[English]', 'Virtualization Technology' is '[Disabled]', 'Fan Always On' is '[Disabled]', 'Action Keys Mode' is '[Enabled]', and 'Battery Remaining Time' is '[Disabled]'. Below these are two sub-menus: 'Boot Options' and 'UEFI Device Configuration', both indicated by a right-pointing arrow. The right column is titled 'Item Specific Help' and is currently empty. At the bottom of the screen, there is a light blue bar containing keyboard shortcuts: 'F1 Help' and 'F1 Exit' on the left; '↑ ↓ Select Item' and '← → Select Menu' in the middle; 'F5/F6 Change Values' and 'Enter Select SubMenu' on the right; and 'F9 Setup Defaults' and 'F10 Save and Exit' on the far right.

Item	Value
Language	[English]
Virtualization Technology	[Disabled]
Fan Always On	[Disabled]
Action Keys Mode	[Enabled]
Battery Remaining Time	[Disabled]
