

Interactive BIOS simulator

HP EliteDesk 705 G5 DM

Welcome to the interactive BIOS simulator

Here's how to use it...

[BIOS Utility Menus](#): (Click the link to navigate to the individual menus)

On this page you will find thumbnail images of each of the product's BIOS utility menus. To view a specific menu in greater detail, simply click that thumbnail. Just as in the live BIOS, on each menu, you can select the tab of each of the other utility menus to navigate directly to that menu.

Menu options:

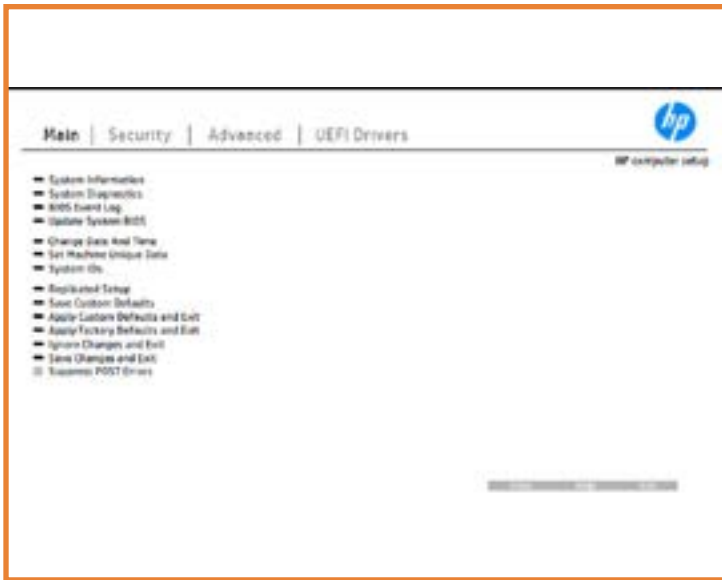

While the menu options cannot be toggled, many of them offer item specific information about that option. To view this information, use the cursor to rollover the option and the information will present in a pane on the right of the BIOS screen.

That's it!

On every page there is a link that brings you back to either this [Welcome page](#) or the [BIOS Utility Menus page](#) enabling you to navigate to whatever BIOS option you wish to review.

System Diagnostics

Back to BIOS Utility Menus

The screenshot shows the HP PC Hardware Diagnostics UEFI interface. On the left is a blue vertical bar with the HP logo. The main area is white and contains the following text and elements:

- HP logo in a blue bar on the left.
- HP PC Hardware Diagnostics UEFI
- Version 7.2.0.0
- For more informatio, please visit: www.hp.com/go/techcenter/PCDiags
- A vertical stack of six dark grey buttons with white text: System Information, System Tests, Component Tests, Test Logs, Language (with a globe icon), and an unlabeled button.
- A light blue rectangular box on the right with the text "Item Specific Help" at the top.
