Installing the software

General

Before installing the software, verify the following:

- At least 8 MB or more of RAM is installed on your PC (16 MB recommended).
- There is at least 20 MB of free hard disk space on your PC.
- All applications are closed on your PC before beginning installation. (A system reboot may be required after the software is installed.)
 - Windows 9x & NT 4.0: No icons should appear on the taskbar.
 - Windows 3.1x: Press **Alt+Tab**. Only the **Program Manager** should appear.

Windows® 9x & NT® 4.0

- 1 Insert the CD into the disk drive on your PC. The installation will automatically begin.

Troubleshooting common issues

1 Basic troubleshooting checks:

- Connect power to the printer and print a self-test page by pressing and releasing the **Go** button while the printer is in Ready status. This verifies the power cord is working correctly, power is on, and the toner is correctly installed with the protective tape removed.
- Copy the self-test page by pressing the **Copy** button on the scanner control panel (scanner installed only). This verifies scanner operation.
- Send a print job from a software application on your PC to your HP LaserJet 1100 printer. This verifies the software installation and communication to the printer.
- Press the **Scan** button on the scanner control panel. If the software launches on your PC, this verifies the scanning software installation and verifies communication to the printer.

2 If the software installation failed without errors or if you cannot print from the PC, verify the following:

- Verify that all applications are closed.
Windows 9x: Press **Ctrl+Alt+Del**. All programs except **Systray** and **Explorer** should be closed. If not, close them by selecting one at a time and clicking **End Task**.
- Reinstall the software.
- Reboot your PC.

故障排除的常见问题

1 基本的故障排除检查:

- 按扫描仪控制面板上的**复印**按钮以复印自检页（仅在安装扫描仪后）。这样就检查了扫描仪的运作。
- 从 PC 上的软件应用程序向 HP LaserJet 1100 打印机发送打印作业。这就检查了软件的安装以及与打印机的通讯。
- 按扫描仪控制面板上的**扫描**按钮。如果 PC 上的软件启动，这就检查了扫描软件的安装以及与打印机的通讯。

2 如果软件安装失败而没有出错或者无法从 PC 打印，则检查以下各项:

- 确证所有应用程序均已关闭。
Windows 9x: 按 **Ctrl+Alt+Del**。应该关闭除 **Systray** 和**资源管理器**之外的所有程序。否则，则一次选择一项并单击**结束任务**。
- 重新安装软件。
- 重新启动 PC。
