

Sandeep Johri

Vice President, Cloud Computing Strategy
Hewlett-Packard Company

Sandeep Johri is vice president of Cloud Computing Strategy at HP. In this role, he is responsible for driving the company's overall cloud strategy.

Prior to this role, Johri was vice president of Corporate Development for HP Software and the Personal Systems Group at HP. He was instrumental in developing and implementing the growth strategy that resulted in the HP Software business doubling its size in four years. During his tenure, Johri led the acquisition and integration of 12 software companies valued at more than \$7 billion.

Prior to joining HP, Johri was an entrepreneur in residence at Mayfield Fund, a leading venture fund in Silicon Valley, where he was pivotal in the formation of start-ups including Determina (acquired by VMware) and Bluelane (acquired by VMware). Prior to this, Johri was the chief executive officer and founder of Oblix (acquired by Oracle), a leading provider of enterprise identity management solutions.

In 1999, Johri cofounded eBoodle (acquired by EW Scripps), one of the first ecommerce comparison shopping services. Johri also has worked at Silicon Graphics and Gemini Consulting.

Johri has a master's degree in business administration from Stanford University, a master's degree in industrial engineering from Wayne State University, Detroit, and a bachelor's degree in mechanical engineering from Pune University, India.
