Joe Weinman

Segment Executive, HP Communications, Media and
Entertainment Business Worldwide
Hewlett-Packard Company

Joe Weinman is responsible for managing HP's unparalled range of technologies, solutions and integration services for the Communication, Media and Entertainment (CME) business. The CME business leverages HP's products, services, intellectual property and partners to enable the creation, aggregation, and distribution of communication and content rich solutions and services in an end-to-end approach.

Prior to joining HP, Weinman led the global portfolio strategy and business development for AT&T Business Solutions. He also has held a number of executive positions in research and development at AT&T Bell Laboratories, marketing, sales, product management, engineering and operations and corporate strategy and business development.

Weinman has been awarded 13 U.S. and international patents in areas such as line coding, simulation and workflow, consumer goods, wireless technologies, and telecommunications, and has many more pending in areas such as software technology, telecommunications consumer premises equipment, network services, wireless devices, web browsers, graphics compression, distributed storage architectures, and Internet search engine algorithms to utility computing infrastructure.

He earned bachelor's and master's degrees in computer science from Cornell University and University of Wisconsin-Madison, respectively, and completed executive education at the International Institute for Management Development in Lausanne, Switzerland.

Weinman is a past chairman of the joint National Science Foundation/Industry Advisory Board of the Center for the Management of Information at the University of Arizona. He is a member of the Association for Computing Machinery (ACM) and the Institute of Electrical and Electronics Engineers, and serves on the program planning committees of a number of cloud computing conferences.
